

Ref: Justification for placing the FCC ID in the user manual and packaging for the following devices:

- FCC ID: X26CSI12
- FCC ID: X26CSI13
- FCC ID: X26CSX12
- FCC ID: X26CSX13

There are two main reasons why devices state above does not have FCC ID:

1) Due to the specific use of a typical hearing instrument, its external surface is in contact with the user's skin in the ear. Therefore, it is not appropriate to permanently affix a label on the outer surface of the device to prevent skin irritations.

2) The only permanent location is the battery door, but it is too small to have the visible text (smaller than 4-6 points).

Therefore, the FCC ID information is included in the user manual and sales package together with the device.
