Subject: FCC ID: X2TUSS-POWER4-A00

Mr. Fujimoto:

In order for processing of this certification application (FCC ID: X2TUSS-POWER4-A00) to continue, the following issue(s) will have to be addressed:

- 1) The document submitted as the operational description is the reference manual, for which confidentiality is requested. It appears as though this reference manual would be distributed to the end user of the device, and therefore could not be held confidential. Please justify how this document qualifies for confidentiality under the FCC's policies (CFR 47, Section 0.459).
- 2) The internal photos must show the internal construction of the device. The photos submitted show only the front and back of each board. Please submit additional photos.
- 3) Since the device was modified during the testing, please submit a letter from the applicant, stating that the modifications will be implemented into all manufactured units.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is X2TUSS-POWER4-A00-1.

Best regards,

Scott McCutchan
Operations Manager
Compatible Electronics TCB
