Re: FCC ID: X32-NSHKG020

To Whom It May Concern:

The following application is submitted on behalf of our client, iKeyless, LLC, for evaluation of their model NSHKL-G02X for certification under FCC Part 15.231.

The NSHKL-G02X is a replacement keyless entry remote for automobiles. The remote is designed such that it can emulate the functionality of a wide range of existing OEM remotes operating at 315MHz with ASK modulation.

The NSHKL-G02X was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'.
