

1.6 User Manual

The image shows the cover of a user manual for a device named "POP BLUETOOTH". The cover has a dark blue background with white text and icons. At the top right, there is a vertical list of language options: English, Français, Deutsch, Español, Italiano, Português, 中文, 日本語, 한국어, العربية, Русский, and Türk. On the left side, there is a diamond-shaped logo with the text "NATIVE UNION" and a stylized "k" symbol. The main title "POP BLUETOOTH" is prominently displayed in the center, with the Bluetooth symbol to its right. Below the title, there is a horizontal line, and then a list of languages for the instruction manual: English (Instruction Manual), French (Manuel d'utilisation), German (Bedienungsanleitung), Spanish (Manual de instrucciones), Italian (Manuale di istruzioni), Portuguese (Manual de instruções), Japanese (使用手冊), Chinese (取扱説明書), Korean (사용 설명서), Arabic (دليل التعليمات), Russian (Руководство по эксплуатации), and Turkish (Öğretim Kılavuzu).

POP Bluetooth basics

POWERING UP

It takes 3-4 hours to fully charge the handset using the micro-USB cable.

TALK TIME

Up to 8 hours

STANDBY

Up to 100 hours

CHARGING

When charging a red LED will appear.

When the handset is fully charged the LED will turn off.

LOW BATTERY

the red LED will flash.

TURNING THE HANDSET ON AND OFF

Press and hold the button for 4 seconds

- a blue LED will flash.

Repeat to turn-off.

CONNECT

- 1 When the handset is off; press and hold the button for 5 seconds until the red and blue LED's flash alternately.
- you are now ready to pair

- 2 Activate the Bluetooth setting on your device - (the device needs to be within a metre of the handset)

- 3 Your device will either automatically search for available Bluetooth devices or alternatively manually instruct your device to search for Bluetooth devices

- 4 Select "POP Bluetooth"
- If asked enter password 0000

- 5 The blue LED will flash every 4 seconds - you are now connected

You only need to pair your device once.

To pair other devices please repeat the above steps.
You can pair up to 8 devices.

BLUETOOTH WIRELESS RANGE

The Bluetooth wireless signal range is up to 10 metres from your mobile device.

AUTOMATIC RECONNECTION

If your mobile device goes out of range the purple LED will flash. Once the mobile device is back in range the handset will automatically reconnect to the last connected mobile and the blue LED will flash every 4 seconds.

If the mobile device does not automatically reconnect, use your mobile devices Bluetooth menu to reconnect manually.

SAFETY INFORMATION

! Please read the instructions carefully.

This product has been designed and manufactured to meet strict quality and safety standards. However, please take note of the following important safety information.

Do not use this apparatus near water. Take care not to spill liquids on the POP Bluetooth. If your POP Bluetooth gets wet, unplug it from your mobile and allow it to dry thoroughly. Please note that damage caused by liquid is not covered by the warranty.

Only clean with a dry cloth. Do not use any cleaning solvents or products.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

FCC COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following 2 condition:

- 1.this device may not cause harmful interference, and
- 2.this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IMPORTANT SAFETY WARNINGS

- 1.FCC regulations state that any change or modification to the equipment, not expressly approved by the manufacturer or its authorized parties, could void user's authority to operate this equipment.
- 2.To prevent fire or electric shock, do not expose the unit to rain or moisture.
- 3.Never attempt to open the casing. Always refer servicing to a qualified technician.

FCC NOTICE (USA)

As specified in Part 15 of the FCC Rules, this equipment complies within the limits of a Class B digital device. These restrictions provide sufficient against radio and TV interference in residential areas. However, even during normal operation, this device may cause TV or radio interference. In attempting to eliminate some or all interference, you should try one or more of the following corrective measures:

- 1.Increase the distance between the device and the radio and/or TV
- 2.Try a different outlet on various electrical circuits for the device, the radio and/or TV.
- 3.Reposition the receiving antenna

Disposal of old electrical and electronic equipment:

After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies:

Electrical and electronic devices may not be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic devices at the end of their services lives to the public collecting points set up for this purpose or point sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilizing old devices, you are making an important contribution to protecting our environment.
