

## ATTESTATION

Date: May 28, 2010

Subject: Attestation for User's Manual and Internal Photos

Ericsson attests that the User's Manual and Internal Photos for FCC ID: X3V1900MFRM3V2 are confidential material for the following reasons:

The user's manual is very technical and is not provided to the consumer because the consumer cannot service the device. Only the designated technicians will be responsible to install/service the device and that the manual will not be shown to the public.

The transmitter used in the CDMA BTS for which certification is being requested, is a non-consumer device inaccessible to the general public. It's installed in a restricted access area accessible to only the licensee or his designated technicians.

The User's Manual and Internal Photos contain trade secrets or technical data which Ericsson (China) Communications Company Ltd deems to be proprietary. Therefore this information would customarily be guarded from competitors and cannot be accessible to the general public.

Thank you!

Sincerely,

A handwritten signature in black ink that reads "Gavin Gan". The signature is written in a cursive, slightly slanted style.

(Signature)

Gavin Gan / Safety & Regulatory Project Manager
