

rif. PVI-RADIOMODULE-US (no FHSS) Module Approval Request

Module Approval Request Letter

Subject: Modular Approval

Date: 2011/03/28

FCC ID: X6W-MODNOP

We, Power-One Italy S.p.a. authorize Eurofins Product Service GmbH to have our model PVI-RADIOMODULE-US approved under **module approval authorization**. The application of this module is specified to mobile host equipment. The requirements regulated in Public Notice DA00-1407 have been fulfilled and clearly explained below.

- 1. The requirement of RF shielding: The shielding of the radio portion can be demonstrated in exhibition external photo.
- 2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in the microprocessor.
- 3. The requirement of power supply regulation: The part number of the power regulator is explained in the attached file.
- 4. The requirements of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
- 5. The requirement of stand-alone test configuration: Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
- 6. The requirement of labelling: The instruction on the labelling rule of the end product has been stated in the Users manual of this module. Please also see the exhibition Label Sample.
- 7. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.

./.

8. The requirement of RF exposure: Please refer exhibition RF Exposure for the compliance of MPE RF exposure rule.
