Request for Dismissal, Class II Permissive Change granted 6/28/2011, FCC ID: X7CAP8120

Dear Sir/Madam

After receiving a response to an initial inquiry through the KDB (filing reference 608866), we are requesting that you please dismiss the C2PC application (both DTS and NII parts) that was granted on 6/28/2011. The manufacturer has stated that the modified device has not yet been marketed / sold.

Additional testing is being performed and the C2PC will be re-submitted once all documents have been gathered.

If you have additional questions please do not hesitate to contact me.

Regards,

Mark Briggs
Staff Engineer
Elliott TCB
