## **“The Stocky” 7000 Series**

**“The Stocky” 7000 series is available in different configurations (See Below)**

|        |                                 |
|--------|---------------------------------|
| 7000   | Standard Unit                   |
| 7000BT | Standard Unit with Bluetooth    |
| 7020   | With RFID Counter               |
| 7020BT | With RFID Counter and Bluetooth |

Testing was performed on model 7020BT (with RFID Counter and Bluetooth (pre-approved)).

All results for this model are reported in this application (FCC ID: XBH-7000).

### **Description of the different configurations**

#### **7000 Standard Unit**

This unit is the most basic of the series. The 7000 unit has all off the components of the 7020BT tested less the counter and Bluetooth modules

#### **7000BT with Bluetooth**

This unit has the Bluetooth option. The 7000BT unit has all off the components of the 7020BT tested less the counter.

#### **7020 with RFID Counter**

This unit has the counter option. The 7020 unit has all off the components of the 7020BT tested less the Bluetooth module.

7020BT with RFID Counter and Bluetooth

This unit is the most Complex in the 7000 series reader with all options. Therefore this unit was used for the test to test all functions and option of the 7000 series.

Regards,

John W Finlayson  
Managing Director

A handwritten signature in black ink, appearing to read "J. W. Finlayson", followed by a long, horizontal, slightly wavy line that extends to the right.
