FEDERAL COMMUNICATIONS COMMISSIONS  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

The RF chip, BK7231N, which is installed in our product WIFI ENABLED RGB/CCT LED LIGHT STRIP, Model: TAPE10RCWF-T, FCC ID: XDE-TAPE10RCWF, supports BDR (GFSK), EDR ( $\pi/4$ -DQPSK, 8DPSK), 2.4G Wi-Fi, and BLE functions. For use in America and this chip will not support/enable BDR (GFSK), EDR ( $\pi/4$ -DQPSK, 8DPSK) and BLE functions. The BDR (GFSK), EDR ( $\pi/4$ -DQPSK, 8DPSK) and BLE functions function has been shielded by the manufacturer using the software.

Sincerely,

Signature: 

Eric Chen

Electrical Engineer
