

**SYSTEM PLANNING CORPORATION**

More Than 40 Years of Excellence

**To Whom It May Concern:**

**Subject: Certification of compliance with FCC 25.213**

WE, GlobalTrak a Division of System Planning Corporation  
3601 Wilson Blvd  
Arlington, VA 22201

Devices containing the STX2 must comply with the requirements for radio astronomy site avoidance as specified by CRF 25.213. Additionally, integrators must comply with the requirements for use as specified by GlobalStar integration manual. Globalstar will provide instructions for frequency use in regions of the world as well as compliance to CFR 25.213.

GlobalTrak is compliance with the STX2 requirement with respect to the VERSA product.
