Subject: Supersede request

Reference:

AM/FM Stereo Receiver with 2.4 GHz WiFi 802.11b/g module

Model No.: CR-H500NT

IC: 1559C-CRH500NT

FCC ID: XEGCR-H500NT

Dear Sir,

Concerning our product model CR-H500NT we realized that the wrong photographs were sent to Nemko TCB by mistake. We would like to supersede the existing internal photograph exhibit by the correct exhibit.

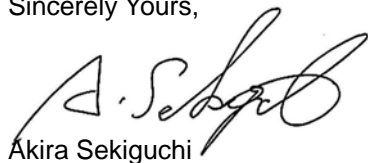

We had two different kinds of product versions. One is North America version and the other is European version.

FCC compliance test has been correctly performed with North America version sample. However the internal photograph exhibit which was submitted before was photographs for European version product.

Actual tested sample's photographs should have been submitted to Nemko TCB. We confirm that the wrong photographs were sent to Nemko TCB by mistake.

Please see attached correct internal photograph exhibit and supersede wrong photographs by correct photographs.

Sincerely Yours,

Akira Sekiguchi
