Please read this Bluetooth Speaker User Guide, charge the speaker and
pair it with your Bluetooth device.

Features

- Bluetooth Music Playing
- Lowest consumption
- High quality drivers
- Support TF card
- Support AUX input
- Support FM for broadcast
- Support Music Mode
- Support Auto Pair
- Support NFC for induction

Use Instructions

1. When the speaker is being charged, the LED indicator will keep
on and shut down after fully charged. Usually it takes 2 hours.
(Support use while charging)
2. When the speaker is in full power, charge it through the PC/DC
Adapter, Car Charger and the Micro USB cable/Connector attached.
Turn On Your Speaker
3. In that status, press the power switch for 3 seconds when
you have the voice prompt of "Bluetooth is ready" repeat the
device's connection. If it means it has been turned on and enter
pairing mode. The blue and green indicator lights alternately
flashes on the Bluetooth function of your music.
4. Search for new Bluetooth device named "S121" model.
5. Choose the S121 and press "OK" to connect. For the most touch
screen phone, click the model S121 to connect automatically.
"OK" is the PK code if needed by some models.
