2. Put in the supplied batteries as marked in the battery compartment
3. Close the battery cover
4. Start your computer and connect the dongle to a USB port
5. After automatic driver installation, the Keyboard can be used

## Delivery

2,4GHz Wireless Keyboard with Touch pad  
2,4GHz Dongle with USB-Connector  
Quick Start Guide

Compatibility	All Operating Systems Supporting Standard USB Keyboard
Temperature Range	Storage: -20° to +60° Operating: 0° to +50°
<b>Dongle</b>	
Interface	USB
Power Supply	5VDC
Dimensions	Appr. 19 x 15 x 6 mm
<b>Keyboard</b>	
Protection	Silicon membrane sealed
Weight	Appr. 700g (without packaging & batteries)
Dimensions	Appr. 375 x 138 x 38 mm
Keys	82 + 2 Touchpad Mouse Keys
Key Travel	Appr. 1mm
Chemical Resistance	Suitable for most clinical cleaning agents and surface disinfectants
<b>Approvals</b>	<b>CE, FCC</b>

Note: The micro USB port on the keyboard is only for factory debugging, not for customer use.

Hereby Heng Yu that the device CK82B-RF is in compliance with the essential requirements of Directive 1999/5/EC .

**CE1622**

Wireless Keyboard: CK82B-RF(FCC ID:XENCK82BRF01 )

Wireless Mouse Dongle: GD001(FCC ID:XENGD001)

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
