Wireless charger operation manual

The diagram of installation

① Power supply ② Connector for power supply
③ Charging area ④ Product description

① 用开孔器在桌面开孔
1. Make a hole in the desktop

② 开孔 ϕ 60mm
2. Cutout ϕ 60mm

③ 将插头连接桌下电源
3. connect the product to the AC adapter

④ 完成安装
4. Finish installation

MAX distance 6mm
最大充电距离6mm

Can not bring cell phone case / shell charge
不能带手机保护套/壳充电

Please lay the charge device directly on this product label indicating area (without direction)
需充电设备必须放在本产品表示的充电指示区域

- First of all, thanks sincerely for buying this product .For your safely, please read this

manual carefully

- **The first: To protect people from harm and property loss, we A. Warning! There are concerning the possibilities of death**

- Warning! There are concerning the possibilities of death and severe wound : People who use heart-birth-maker should consult your doctor before you use this product ; And please leave it at a distance of 50cm from the place where you install your heart-birth-maker, the electromagnetic wave have influence on heart- birth-maker's work manual, keep them properly.

- **Attention! It may led to heat, fire and electric shock:**

- 1) Do not put it into water or any other liquid , Do not make it wet;
- 2) Do not pull the AC adapter out with wet hands, ensure the safety and integrity of the adapter;
- 3) Do not let the dust or other things accumulate on the product and the AC adapter;
- 4) Do not use the product outside the temperature-20 °C to 40 °C;
- 5) Do not charge in places where the sun shine directly or with high temperature;
- 6) Do not use this product in places that are easy to fall , so as not break;
- 7) Do not lay the magnetic card , magnetic record media and precise machine too close to the protect ;
- 8) Do not decompose and remold ;
- 9) Do not lay anything between the non-connection charging pad and the charging machine ;
- 10) Can not bring cell phone case / shell charge
- 11) Do not surpass the rated value when using the plug and other wiring layout;
- 12) Do not make any breakage on the AC adapter , please make sure you connect the AC adapter fully and take the AC adapter off the plug when it's not used .
- 13) Do not use travel converter .
- 14) Please teach your children , the let them use

- **The second :Product advantages**

- 1) the product is of high sensitivity , intelligent recognition,put a charge; After charging, automatically enter standby mode of the product;
- 2) charge for all Qi compliant product .
- 3) efficiency can reach more than 70% ,less heat;
- 4) in the process of charging can be free to pick up, answer the phone , freeing discharge or charge;

- **The third wireless charger's charging method**

- 1) Please connect the product to the AC adapter, red light is on, enters the standby status;
- 2) Please lay the charge device directly on this product label indicating area (without direction),green light is on, enters the charging status;
- 3) When the charging equipment complete, can be taken away;red light is on again, enters the standby status.

■ **The fourth: product features**

Product model: CH004B

- Main functions: wireless charging transmitter;
- Standard version: WPC-1.2.3;
- Products applicable: all wireless charging equipment accorded with Qi standard;
- Charging type: one-on-one charge corresponding area;
- The input voltage:DC:5V/2A;
- Output: DC 5V 1000MA
- Launch distance:4 to 6 mm;
- Conversion efficiency: $\cong 70\%$;
- Charging methods: induction model;
- Working frequency:110-205 KHz;
- Accessories/components name: Wireless charging pad AC adapter.

REMARK:If you use other mobile phones, you can add one extra wireless receiver:

The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications or change to this equipment. Such modifications or change could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note : Cet appareil est conforme à la Partie 15 des règlements de la FCC et aux normes RSS de l'Industrie du Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer des interférences nuisibles, et (2) cet appareil doit accepter toute interférence reçue, y compris les interférences qui peuvent provoquer un fonctionnement indésirable.
