American Telecommunications Certification Body, Inc.
6731 Whittier Avenue
Suite C110
McLean, VA 22101

To Whom It May Concern:

Pursuant to our application for FCC certification of handset Model WP8, FCC ID: XEZ-1000, I certify the following:

1. Neither the Bluetooth transmitter nor the cell phone transmitter operates with voltage provided from AC power lines.
2. The Bluetooth transmitter can transmit simultaneously with the cell phone transmitter. However, since the power of the Bluetooth transmission is lower than 13.8dBm, co-location testing of the devices was not performed as per the requisite SAR requirements.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in blue ink that reads "Denee Clark".

Denee Clark
Senior Director, Global Carrier Alliances
