Dear Application Examiner,

Ooma, Inc., Model No.: TELOMD20, FCC ID: XFT-TELOMD20, would like to have your authorization as a modular approval specific to DECT base station.

The requirements of Public Notice DA00-1407 have been met and shown on the following statements.

1. **"The modular transmitter must have its own RF shielding." Device is equipped with metal shielding case that covers RF section.**
2. **"The modular transmitter must have buffered modulation/data inputs." All inputs to the module are buffered, they are integrated in the chip DCX79.**
3. **"The modular transmitter must have its own power supply regulation." Internal power regulator is integrated in the chip DCX79. Refer to block diagram and technical description.**
4. **"The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(C)." Device is equipped with unique antenna pad for the connection between the antenna and module.**
5. **"The modular transmitter must be tested in a stand-alone configuration." Device was tested outside of the host computer as a stand-alone configuration.**
6. **"The modular transmitter must be labeled with its own FCC ID number." A permanent label shall be affixed.**
7. **"The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements." The module will be installed by Ooma or Ooma authorized manufacturer.**
