Class B Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15, Subpart B of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This product is compliant with the Consumer Product Safety Improvement Act of 2008, Public Law 110-334 (CPISIA).
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Emission Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitters.

CANADA-statement
This equipment complies with IC RSS-322 radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Cet appareil est conforme aux limites d'exposition aux radiations ICNIR-102 établies pour un environnement non contrôlé. Cet appareil ne doit pas être stocké ou fonctionner en conjunction avec une autre antenne ou un autre émetteur.

This device complies with the limits for radio frequency (RF) exposure established by the Canadian Council of Ministers of the Environment Health Protection Agency for the uncontrolled environment.

Operator is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux ICNIR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage.
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RADIATION EXPOSURE STATEMENT

The device is designed to be used with the RP exposure limits set for use for an uncontrolled environment and are safe for intended operation as described in this manual. The further RP exposure reduction can be achieved if the product can be kept as far as possible from the user body or set.

The product is designed to conform with the limits disposition pour les appareils portables RP pour les États-Unis et le Canada établies pour un environnement non contrôlé. Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RP peut être augmentée si l'appareil peut être écarté aussi loin que possible de l'utilisateur.

Battery Caution:

- Do not touch the battery terminals with your fingers or other metal objects. The device will not operate if the battery is shorted.
- Do not continue to use if severe swelling.
- Do not place in a high temperature environment.
- Do not use after the battery is flooded.
- Do not use any charger other than that specifically provided for use with the equipment;
- Dispose of used batteries according to the instructions.
