RE: FCC/IC application for Ambient Systems, FCC ID: XGR-MR3000, IC ID: 8398A-MR3000

To whom it may concern:

The enclosed documents constitute a formal submittal and application for Equipment Authorization for a RFID Router using the 2.4GHz band pursuant to the following rules:

Subpart C of Part 15 of FCC Rules (CFR 47), Section 15.247  
RSS-Gen Issue 2, June 2007, "General Requirements and Information for the Certification of Radiocommunication Equipment"  
RSS-210, Issue 7, June 2007, "Low-power Licence-exempt Radiocommunication Devices (All Frequency Bands): Category I Equipment"

For Industry Canada, the applicant is seeking a family approval to cover additional model numbers to be used when the product is marketed under the DeltaTrak brand. The Ambient model MR3000 will also be marketed as DeltaTrak, model 20171C (in Canada).

Note, this application is based on the same test data for the Ambient GW3000, FCC ID: XGR-GW3000. The two products are identical, except for the removal of a RJ11 connector on the digital circuitry for the MR3000.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

Mark Hill  
Staff Engineer
