Re: Technical Justification Letter Pertaining to FCC ID: XHG-M600A

Gentlemen:

This is to justify 802.16e + EVDO Rev.A module, Model Number: M600A is installed in a different portable host, Lenovo Ideapad S205s model number: 20127; 2090. There is no change on the module hardware and the antennas used in the portable host is the same antenna type as the previous with less gain by comparing to the certified antennas included in the original modular approval, and output power remains unchanged. Therefore EMC tests are not performed.
