Columbia MD 21046-1609

SUBJECT: Class II Permissive Change for FCC ID: XHM-PB63D31, Model: 52F185V10000

The product, 52F185V10000, has been granted by FCC dated 11/10/2016 under FCC ID: XHM-PB63D31. The intension of this application is to enable the modular certified FCC ID: XHM-PB63D31 to be integrated in Flytech Mobile pc/ Model: M284.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. Software security remains unchanged from the original application. The Original FCC testing on module under FCC ID: XHM-PB63D31 was performed with an antenna of higher gain, and the antenna was connected to the module in an open environment. The current host platform under application uses an antenna of the same type but of lower gain and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary.
