Requirement of C2PCPX (Notification 202109-001)	Applicant's answer
1) The requirements of § 2.1043 are fulfilled, i.e., the device's block functions for the fundamental frequency, primary modulator circuit, maximum power, or field strength ratings shall remain unchanged.	Correct, We have not changed this.
2) Transmitter PCB layout and parts changes are only permitted if there is no change in identifying a device's form, functional specification, as initially granted or previously approved under a Class II permissive change.	There is no change in identifying the design form.
3) PCB changes are limited to non-substantive modifications layout changes to the same size physical circuit board previously granted.	PCB size remains same.
4) C2PCPX is not permitted to add, remove, augment, or change capabilities, such as transmitters, increased bandwidth, additional rule parts, bands, etc.	Correct, We have not changed this.
5) In the PAG submission for item C2PCPX, the applicant shall provide complete information on testing demonstrating that the proposed changes for fundamental emissions are unchanged within the normal, acceptable tolerances and out-of-band; emissions do not exceed the appropriate limits.	A detailed change notice is provided, no further change to the mentioned test
The PAG submission shall include all applicable test reports and internal photos.	The applicable test reports and internal photos will be included in the application.
6) The modified device shall not be marketed under the existing grant of certification before confirmation that the C2PCPX PAG is approved and granted.	Yes.
7) Software Defined Radio (SDR) grants that use the C2PCPX procedure are not permitted to make subsequent Class III permissive changes.	It is not a SDR grant.
8) The C2PCPX PAG procedure has no impact on the provisions of V) of this publication for non-SDR software-only changes; thus, adding an equipment class when related to rule changes is still permitted.	It is not a SDR grant.
9) Class I permissive changes are not permitted under this C2PCPX procedure.	Class II permissive change will be applied for this change.

Sincerely,

Pat Sinni / Certification and Compliance Team Leader
