To Whom It May Concern

We, NetComm Wireless Limited, hereby outline the difference between between FCC ID: *XIA-NWL1201* and FCC ID: *XIA-NTC620001* as below.

- Outer plastic enclosure styles are different but made from similar materials. PCB and cable routing is identical.

Based on the similarity between two FCC IDs, we hereby request permission to use Part 15C/22H/24E conducted test data of FCC ID *XIA-NWL1201*, verifying the radiated worst cases found in FCC ID *XIA-NWL1201* on FCC ID *XIA-NTC620001*, to show the compliance of FCC ID *XIA-NTC620001* regarding Part 15C/22H/24E requirements. For RF Exposure assessment, the calculation is based on the highest output power in accordance with the tune-up procedure to show the compliance of both FCC IDs.

Sincerely,

Casey Mak

Production Manager, NetComm Wireless Limited
