主旨: NetComm Limited, FCC ID: XIAN3G007W, Assessment NO.: AN09T9368, Notice#1

Hi Daphne,

Please address following issues.

Q#1: Because the EUT is large enough that 15.19 labeling statement must be placed on the EUT. Please address.

ANS: Please see the updated Label location(980708).

Q#2: RF exposure statements mentioned in the user manual doesn' t agree with this device. 20cm safe distance shall be maintained between the transmitter antennas to the user. Please update.

ANS: Has been added in page 29 of manual-2, please see the updated user manual_part 2(980708) of page 29.

FYI: This router is designed to use with one end-user plug-in 3G USB modem, per 2006 OCT. TCB Workshop material, the Grantee of the part 15 gateway-product is responsible to submit a Class II permissive change filing when two transmitters can transmit simultaneously and the antenna distance between two transmitters is within 20cm to ensure compliance with FCC rules for intended and expected end-use co-located multi-transmitter product.

Best Regards,
Lucy Tsai
CCS

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
