

USER MANUAL (FCC STATEMENT)

FCCID: XKB-IUC15ZCL

This is a copy of the page where the FCC statement is included: 900001663 R11 000 08/1227

3.3. EC standard compliance marking

EC standard compliance marking certifies that the product stipulated below:

IPP3X0-X1TXXXXX

• conforms to the following harmonized standards :

- IEC/EN 60950-1: Electrical safety of data processing equipment including electrical office equipment. Issue dec. 2001

EN 55022: Data processing equipment – Radiofrequency disturbance characteristics - Limits and measurement methods. EN 55022 2006 + A1 (2007)

- EN 55024: Data processing equipment – Immunity characteristics - Limits and measurement methods. Issue 1998 + A1- 2001 + A2 – 2003

3.4. IC statements

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication."

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

"This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

"Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement".

3.5. FCC Statement

FCC standard compliance marking certifies that the product stipulated below:

IPP3X0-X1TXXXXX

• conforms to the following harmonized standards :

- part 15 subpart B of the FCC rules

This class (B) digital apparatus complies with Canadian ICES-003.

Information to users:

This device complies with FCC and IC radiation exposure limits set forth for general population. This device must be installed to provide a separation distance of a least 20cm

from all persons and must not be co-located or operating with any other antenna or transmitter.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

3.6. Main Characteristics

The main technical characteristics of the terminal Ingenico IPP3X0-X1TXXXX are:

Mass	260 g without cable
Dimensions	169,5 x 83x 42 mm (l x w x h)

Operating conditions

Ambient temperature	from +5°C to +40°C
Max relative humidity	85% at +40°C
Link	USB, Power Over Ethernet or RS232 and power supply

Storage conditions

Storage temperature	-20°C,+55°C
Max relative humidity	85% at +55°C
