FCC/IC Compliance (2G/3G model)

The FCC ID for MOVE/5000 2G/3G Terminal model is: XKB-MOV and IC number is 2586D-MOV

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help
-
- In order to meet FCC and Industry Canada RF radiation exposure limits for general population, this device must only be operated when held in the hand or in desktop position with a minimum separation distance of at least 20cm from the user's body and it must not be collocated or operated in conjunction with any other antenna or transmitter. Use of this device with an accessory in order to be worn and operated on user's body is strictly prohibited and will invalidate the certifications obtained for FCC and Industry Canada.
 - Afin de respecter les directives de la FCC et d'Industrie Canada concernant les expositions radiofréquence, cet appareil ne doit fonctionner que tenu dans la main ou sur station d'accueil avec une distance minimale d'au moins 20cm du corps de l'utilisateur et il ne doit pas être en colocation ou coopération avec une autre antenne ou émetteur. L'utilisation de cet appareil avec un accessoire dans le but d'être porté et fonctionné sur le corps de l'utilisateur est strictement prohibé et invalidera les certifications FCC et Industrie Canada obtenues
 - Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to others users, the antenna type and its gain should be so chosen that the equipment isotropically radiated power (eirp) is not more than the necessary for successful communication.
 - Conformément à la réglementation d'Industrie Canada, le présent émetteur peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur)

approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

- This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
- Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
 - (1) l'appareil ne doit pas produire de brouillage, et
 - (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
- This class (B) digital apparatus complies with Canadian ICES-003.
- Cet appareil numérique de la classe B est conforme à la norme canadienne ICES-003

- No changes shall be made to the equipment without the permission of Ingenico as this may void the user's authority to operate the equipment.
- Tout changement apporté à ce terminal non expressément approuvé par Ingenico est susceptible d'annuler le droit de l'utilisateur à se servir de cet équipement.
