

COVER LETTER

**OPEN1500
OPEN2500**

- FCC ID: XKB-OPE15CL
- IC: 2586D-OPE15CL

OPEN1500 is said as "integrated" type while OPEN2500 is said as a "kiosk" type. the only difference is the plastic front face of the terminal

HVIN	Type	Power supply range
OPEN1500 /POE	integrated	Up to 48Vdc
OPEN2500 /POE	kiosk	Up to 48Vdc
OPEN1500 /Eth	integrated	12-24Vdc
OPEN2500 /Eth	kiosk	12-24Vdc

RFID card reader interface design is identical for all the models of OPEN family

Because of the above explanation and that the previous testing report covers all the power supply range, we consider that the previous test report applies to all 4 "OPEN" terminal family HVINs

Sincerely,

Nicolas JACQUEMONT
Certification Manager
