

## Operational Description

This device is a 300N Wireless LAN INIC Module (IEEE 802.11b/g/n, 2T2R), which operates in the 2.4GHz frequency spectrum with throughput of up to 300Mbps which OFDM technique will be applied. If the signal to noise ratio is too poor which could not support 300Mbps, the 11Mbps data rate with DSSS technique will be applied.

The transmitter of the EUT is powered by host equipment. The antenna used in this product is Dipole antenna or PCB antenna with IPEX connector.

The other instruction, please have a look at the users manual.
