Charging Your Speaker

Your speaker has a built-in, rechargeable lithium-ion battery. To avoid damage, do not attempt to remove the battery. The full performance of the battery is only achieved after a few charging-dis-charging cycles. Charge the battery fully before first use. To do so, follow the steps below:

1. Connect one end of the included USB charging cable to the charging port on your speaker. Then plug the other end of the USB charging cable into a USB port on your computer or a suitable power adapter in order to recharge the internal rechargeable battery.

NOTE: The internal battery of your speaker takes approximately 5-8 hours to charge when completely drained.

2. When the battery is charging, the LED indicator light will turn red. The LED indicator light will turn off when the battery is fully charged. Unplug when charging is complete.

NOTE: Overcharging could reduce the life of the battery. A charged battery will lose its capacity if it is not used on a regular basis.

Important!

To avoid a complete discharge of the battery, charge your speaker at least once every three months.

Selecting a Mode

Once your speaker is powered on, you can press the Mode Button repeatedly to choose where your speaker will play music from. You can select from the following modes as shown on the display screen on the front of your speaker:

blue: Select this mode in order to play music from a Bluetooth sound source. Make sure this mode is selected before pairing your Bluetooth audio device with your speaker.

line: Select this mode in order to play music from an audio source connected to the speaker's Auxiliary Port using the included 3.5mm Audio Cable.

usb: Select this mode in order to play music from a thumb drive or similar device inserted into your speaker's USB Port. "SCH or NO D" will appear on the display screen if no drive is inserted.

card: Select this mode in order to play music from a memory card inserted into your speaker's TF Card Reader slot. "SCH or NO D" will appear on the display screen if no card is inserted.

radio: Select this mode to listen to FM radio stations. Use the Next Track and Previous Track buttons to switch stations.

Pairing Your Speaker with a Bluetooth Device

Your speaker can be paired with most Bluetooth devices including iPads, iPhones, iPod Touches, and most smartphones, laptops and tablets. In order to pair your speaker with a phone, follow the steps below:

1. Slide the ON/OFF switch to the ON position to power on your speaker. Make sure that “Blue” appears on your speaker’s display screen to indicate that you are in Bluetooth mode. If it does not, press the mode button repeatedly until you are in Bluetooth mode. Once in Bluetooth mode, your speaker will automatically get ready to pair.
2. Go to the Bluetooth Manager of your Bluetooth device.
3. Search Bluetooth devices and select “Vivitar B60011” to start connecting.
4. Enter “0000” if your device asks for the PIN code.

Note: If a memory card is inserted in the TF Card Reader slot, or a thumb drive is inserted in the USB Port, your speaker will automatically go into the associated mode. Similarly, if an audio source is connected through your speaker’s Auxiliary Port your speaker will automatically go into Auxiliary Input Mode (Line In). Repeatedly press the Mode button to switch between modes.

Using Your Speaker

Powering Your Speaker On and OFF
