The EUT is part of our product portfolio consisting exclusively of professional communication devices and periphery designed for and delivered to mobile network operators.

These devices are generally installed by well-trained professional installers under the control of the network operators at locations, where the general public has no access; such as mounted at masts, on building roofs or locked inside telecommunication shelters/rooms serviceable only by the licensee or designated technicians.

The highly technical installation guides are only handed-out with the ordered devices to the network operator/professional installer. There is an NDA (Non-Disclosure Agreement) between us and our customer that assures that these instructions will never be made available to third parties.

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to the applicant and provide unjustified to its competitors.

The applicant understands that pursuant to rule 0.457, disclosure of this application and all accompanying documentation will not be made before the date of the grant for this application.
