FCC ID: XM2-EP6B  
Product Name: TRL7S8SC8A9S19AWAS

**Class 2 Permissive Change**

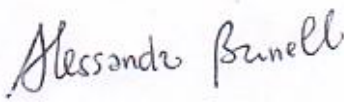

We submitted to certification (FCC-ID: XM2-EP6B) our 6-bands Remote Unit in authorized bands (SMR700Low, SMR700High, SMR800 Commercial, AMPS, PCS and AWS bands) for US market.

This equipment worked also on 896-902 UL / 935-941 DL band. This band was intended for non-US operations. The associated hardware under test was populated, but this band was switched off during the tuning operation in the factory.

With reference to 935210 D02 v02r01 cap. 5(j)(4), now we can switch on this band for in-building DAS Class B booster with pass-band encompassing both CMRS and PLMRS/PSRS. No change in the hardware and in the software is occurred in the equipment under this filing.

This change will be made only in those units produced after the change is authorized.
