Re: Frequencies of operation for **FCC ID: XMK-MMXTRNB009**

To Whom it may concern:

The user Manual for the Ubiik Mimoamx Tornado radios covered by **FCC ID: XMK-MMXTRNB009** covers a family of radios that includes other frequency bands and refers to operation at additional licensed frequencies. The Variants covered by **FCC ID: XMK-MMXTRNB009** cover both USA frequency allocations and other countries frequency allocations. While the Radio can operate over the band 896-960 MHz, it will be authorised to be operated between 928 and 960MHz in the USA and the FCC rules are violated if the device operated on unauthorized frequencies.

Signatory

A handwritten signature in black ink that reads "James Dowle". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Name: James Dowle
