Section 15.212 Modular Transmitters								
Request	t for Modular		est for Limited Modular Approval					
		Requirements	EUT Conditions	Comply (Y/N)				
Single Modular Approval Requirements								
1	The radio elements of the modular		The radio portion of this module is	Y				
	transmitter must have their own		shielded, please see exhibition external					
		he physical crystal and	photos.					
	tuning capacitors may be located							
2		he shielded radio elements.		N/				
2		r transmitter must have	The module has buffer modulation/data	Y				
		dulation/data inputs (if such	inputs.					
		rovided) to ensure that the						
		comply with Part 15 s under conditions of						
		ta rates or over-modulation.						
3		r transmitter must have its	The module has its own power supply	Y				
5	own power supply regulation.		regulation. Please see the schem.pdf	-				
4	The modular transmitter must comply		The requirements of antenna connector	Y				
•	with the antenna and transmission		and spurious emission have been					
	system requirements of Sections 15.203,		fulfilled. Please refer to the Test Report					
		nd 15.204(c). The antenna	exhibition.					
		be permanently attached or						
		nique" antenna coupler (at						
	all connections between the module and							
		including the cable). The						
		l installation" provision of						
		03 is not applicable to						
		can apply to limited						
	11	rovals under paragraph (b)						
5	of this sectio		Discourse from the disc Castery Di . 4	V				
5		r transmitter must be tested	Please refer to the Setup Photo	Y				
		one configuration, <i>i.e.</i> , the	exhibition for the stand-alone test					
		g testing for compliance	configuration.					
		requirements. Unless the						
		nodule will be battery						
		must comply with the AC						
	-	ed requirements found in						
		07. AC or DC power lines						
	and data input/output lines connected to							
	-	nust not contain ferrites,						
		will be marketed with the						
	-	Section 15.27(a)). The						
	-	ese lines shall be the length						
	typical of ac	tual use or, if that length is						

	unknown, at least 10 centimeters to		
	insure that there is no coupling between		
	the case of the module and supporting		
	equipment. Any accessories, peripherals,		
	or support equipment connected to the		
	module during testing shall be		
	unmodified and commercially available		
	(see Section 15.31(i)).		
6	The modular transmitter must be	The Medule will put lebel in user	Y
0		The Module will put label in user	ľ
	equipped with either a permanently	manual since limited space, and the	
	affixed label or must be capable of	instruction on the labeling rule of the	
	electronically displaying its FCC	end product has been stated in the User	
	identification number.	Manual of this module. Please refer to	
	(A) If using a permanently affixed label, the	the Label declaration and User Manual	
	modular transmitter must be labeled with its own	exhibition.	
	FCC identification number, and, if the FCC identification number is not visible when the		
	module is installed inside another device, then		
	the outside of the device into which the module is		
	installed must also display a label referring to		
	the enclosed module. This exterior label can use		
	wording such as the following: "Contains		
	Transmitter Module FCC ID: XYZMODEL1" or "Contains FCC ID:		
	<i>XYZMODEL1. "Any similar wording</i>		
	that expresses the same meaning may be used.		
	The Grantee may either provide such a label, an		
	example of which must be included in the		
	application for equipment		
	authorization, or, must provide adequate		
	instructions along with the module which explain this proving the latter area of come of		
	this requirement. In the latter case, a copy of these instructions must be included in the		
	application for equipment authorization.		
	<i>(B)</i> If the modular transmitter uses an electronic		
	display of the FCC identification number, the		
	information must be readily accessible and		
	visible on the modular transmitter or on the		
	device in which it is installed. If the module is installed inside another device, then the outside		
	of the device into which the module is installed		
	must display a label referring to the enclosed		
	module. This exterior label can use wording such		
	as the following:		
	"Contains FCC certified transmitter module(s)."		
	Any similar wording that expresses the same		
	meaning may be used. The user manual must include instructions on how to access the		
	electronic display. A copy of these instructions		
	must be included in the application for		
	equipment authorization.		
7	The modular transmitter must comply	The required FCC rule has been fulfilled	Y
	with any specific rules or operating	and all the instructions for maintaining	
		e	
	-	the User Manual.	
	requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such	compliance have been clearly stated in	

	requirements. A copy of these		
	instructions must be included in the		
	application for equipment authorization.		
8	3 The modular transmitter must comply	Please refer exhibition RF Exposure for	Y
	with any applicable RF exposure	the compliance of MPE RF exposure	
	requirements in its final configuration.	rule.
