FCC ID: XMR2024FCU743R Section 15.212 Modular Transmitters					
	Requirements	EUT Conditions	Comply (Y/N)		
		Approval Requirements			
1	The radio elements of the modular	The radio portion of this module is	Y		
	transmitter must have their own	shielded, please see exhibition external			
	shielding. The physical crystal and	photos.			
	tuning capacitors may be located				
2	external to the shielded radio elements. The modular transmitter must have	The module has buffer modulation/data	Y		
Z	buffered modulation/data inputs (if such	inputs.	X		
	inputs are provided) to ensure that the	inputs.			
	module will comply with Part 15				
	requirements under conditions of				
	excessive data rates or over-modulation.				
3	The modular transmitter must have its	The module has its own power supply	Y		
	own power supply regulation.	regulation. Please see the schem.pdf			
4	The modular transmitter must comply	The requirements of antenna connector	Y		
	with the antenna and transmission	and spurious emission have been			
	system requirements of Sections 15.203,	fulfilled. Please refer to the Test Report			
	15.204(b) and 15.204(c). The antenna	exhibition.			
	must either be permanently attached or				
	employ a "unique" antenna coupler (at				
	all connections between the module and the enterna, including the cable). The				
	the antenna, including the cable). The "professional installation" provision of				
	Section 15.203 is not applicable to				
	modules but can apply to limited				
	modular approvals under paragraph (b)				
	of this section.				
5	The modular transmitter must be tested	Please refer to the Setup Photo	Y		
	in a stand-alone configuration, <i>i.e.</i> , the	exhibition for the stand-alone test			
	module must not be inside another	configuration.			
	device during testing for compliance				
	with Part 15 requirements. Unless the				
	transmitter module will be battery				
	powered, it must comply with the AC				
	line conducted requirements found in				
	Section 15.207. AC or DC power lines and data input/output lines connected to				
	the module must not contain ferrites,				
	unless they will be marketed with the				
	module (see Section 15.27(a)). The				
	length of these lines shall be the length				
	typical of actual use or, if that length is				
	unknown, at least 10 centimeters to				
	insure that there is no coupling between				
	the case of the module and supporting				

equipment. Any accessories, peripherals, or support equipment connected to the module during testing shall be unmodified and commercially available (see Section 15.31(i)). The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number. The Module will be labeled with its own FCC identification number. Y (A) If using a permanently affixed label, the modular transmitter must be labeled with its own FCC identification number, and, if the FCC identification number is not visible when the module is installed inside another device, then the outside of the device into which the module is installed inside another device, then the enclosed module. This exterior label can use wording such as the following: "Contains The Module will be labeled with its own FCC identification number. Y	
module during testing shall be unmodified and commercially available (see Section 15.31(i)).The Module will be labeled with its own FCC ID, and the instruction on the labeling rule of the end product has been stated in the User Manual of this modular transmitter must be labeled with its own FCC identification number. (A) If using a permanently affixed label, the modular transmitter must be labeled with its own FCC identification number, and, if the FCC identification number is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can useThe Module will be labeled with its own FCC iD, and the instruction on the labeling rule of the end product has been stated in the User Manual of this module.
