

Statement

We Quectel Wireless Solutions Co., Ltd declare the following models.

Product Name: Smart LTE Module with Wi-Fi & Bluetooth

Model Number: SC200E-NA, SC206E-NA

Hardware Version: R2.0

SC206E-NA shares the same hardware design with SC200E-NA. They support the same bands. The only difference between the two models is the operating system. The different OS is as below:

Module	SC200E-NA	SC206E-NA
System	Android	Linux

Above changes won't impact the protocol and RF performance for original frequency bands.

Your assistance on this matter is highly appreciated.
