

Request Letter for ID Dismissal

Dated this 2009/12/9

FEDERAL COMMUNICATIONS COMMISSION
Authorization and Evaluation Division
7435 Oaklmd Mills Road
Columbia, MD 21046
U.S.A.

Dear Sir,

The Grantee would like to supersede schematics, internal photo, and operational for their FCC ID application (FCC ID: XNNMD100AB). There is no change on RF characteristic and technical content construction, and the only difference between old documents and new documents is "Different Brand Name" on the document content. The Grantee and we understand - The supersede of attachment more than two types, dismissal is required. Please kindly help to dismiss FCC ID: XNNMD100AB from the FCC filing site and notify us, then we could file this application again.

Sincerely yours,

Alan Lane
