Subject	<b>Submission materials for Change in FCC ID (FCC ID requested - XOH-GSM001)</b>  Per Title 47: Telecommunication - PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS, Subpart J—Equipment Authorization Procedures, Conditions Attendant to an Equipment Authorization, § 2.933 Change in identification of equipment.

Please note the response for the specific material required per the Part 2 rules specifically (section 2.933, section (b)).

(1) The original identification used on the equipment prior to the change in identification.

**Response: The original FCC ID of the G24 module is IHD1T56FV1. The new FCC ID requested is XOH-GSM001.**

(2) The date of the original grant of the equipment authorization.

**Response: The original grant date is 12/21/2005**

(3) How the equipment bearing the modified identification differs from the original equipment.

**Response: The G24 module bearing the modified identification does not differ from the original equipment.**

(4) Whether the original test results continue to be representative of and applicable to the equipment bearing the changed identification.

**Response: The original test results continue to be representative of and applicable to the equipment bearing the changed identification.**

(5) The photographs required by §2.1033(b)(7) or §2.1033(c)(12) showing the exterior appearance of the equipment, including the operating controls available to the user and the identification label. Photographs of the construction, the component placement on the chassis, and the chassis assembly are not required to be submitted unless specifically requested by the Commission.

**Response: The photograph showing the FCC label location (exhibit 3) has been provided. The drawing of the FCC ID is also provided.**

(c) If the change in the FCC Identifier also involves a change in design or circuitry which falls outside the purview of a permissive change described in §2.1043, a complete application shall be filed pursuant to §2.911.

**Response: There is no change in design or circuitry of the G24 module.**
