|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Solder<br/>Board-Component<br/>View 3</b></p> |  A photograph of a blue printed circuit board (PCB) with various electronic components, including capacitors, resistors, and integrated circuits. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, showing measurements from 0 to 100 mm. |
| <p><b>Antenna View</b></p>                          |  A photograph of the same blue PCB, now installed inside a device's chassis. The board is connected to various cables and components. Two specific areas are highlighted with red boxes and labels: "WIFI Antenna 2+BT Antenna" at the top left and "WIFI Antenna 1" at the bottom right. The chassis is dark grey or black.      |
