

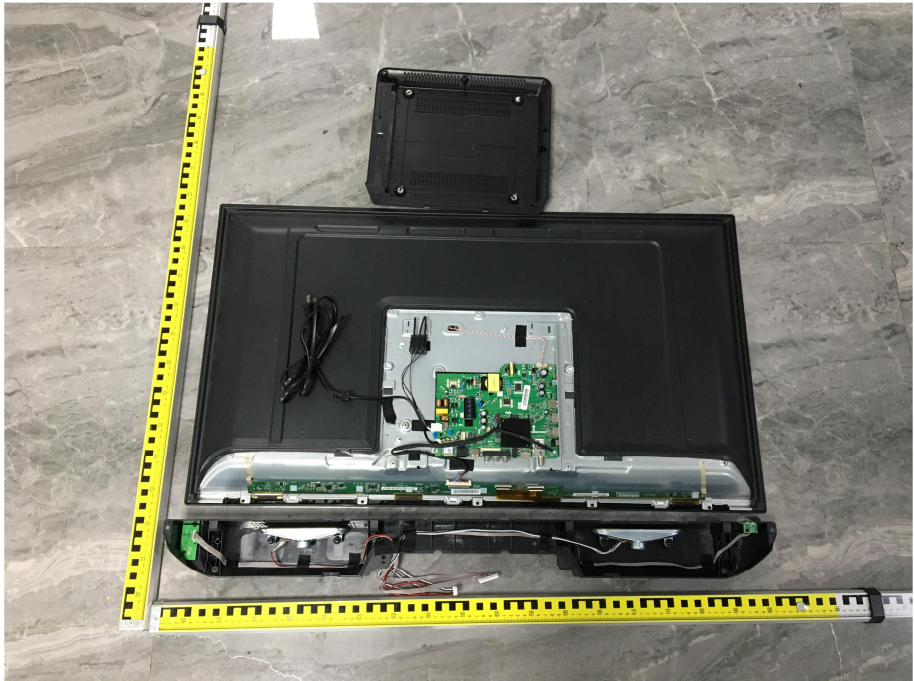

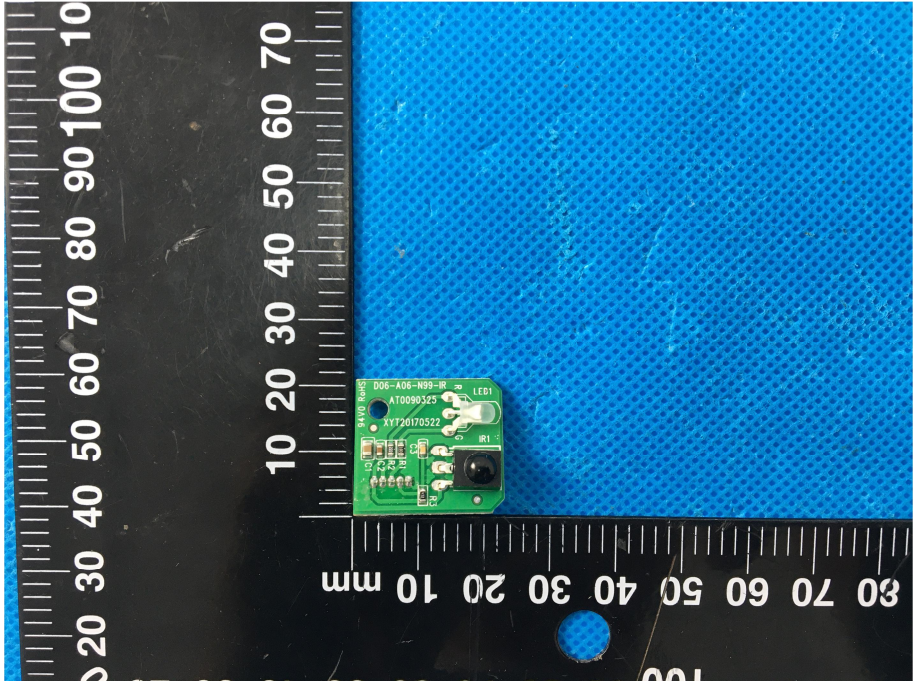

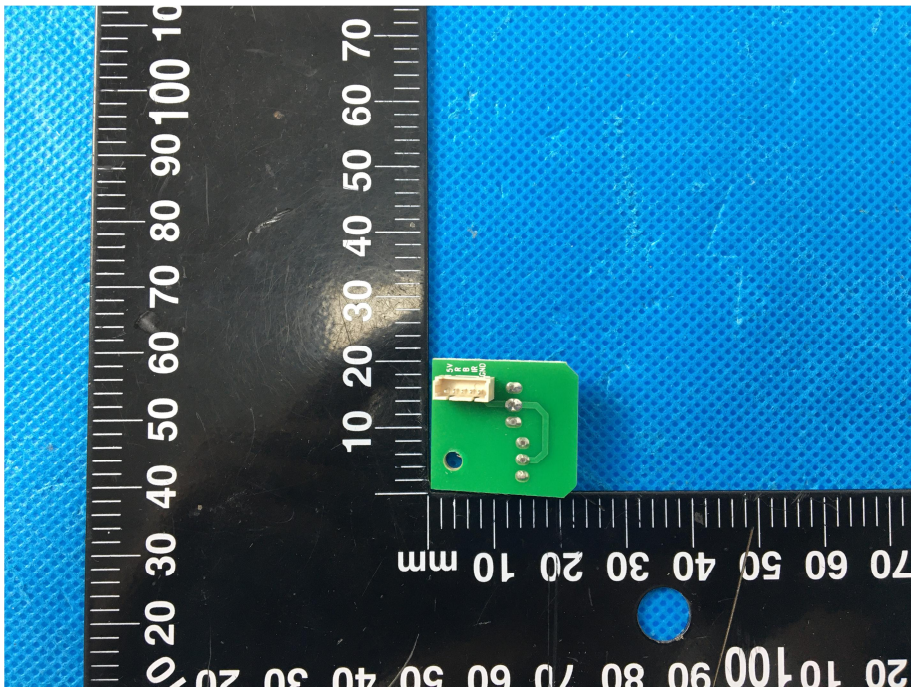

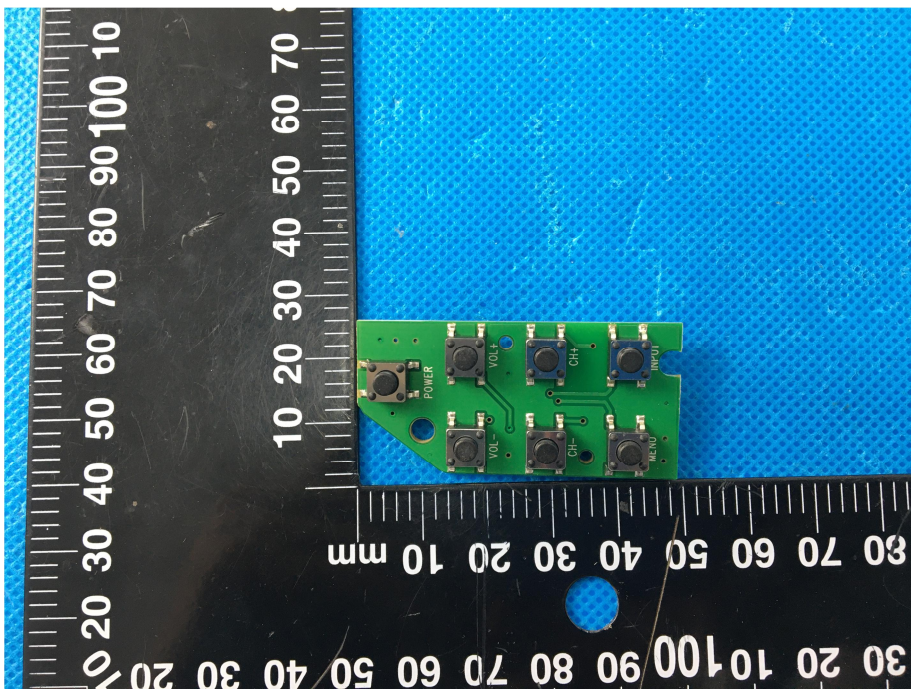

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of an EUT (End User Terminal) housing. The housing is black and rectangular. Inside, a green printed circuit board (PCB) is visible, populated with various electronic components. A yellow and black measuring tape is placed horizontally across the bottom of the housing to provide scale. The background is a light-colored, textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of a small green PCB component, likely a solder board, resting on a blue perforated surface. The component is rectangular and populated with several electronic components, including a microcontroller and various passive components. A black ruler with white markings is placed vertically to the left of the component, and another ruler is placed horizontally below it, both providing scale in millimeters. The component has several labels, including "D06-A06-N99-IR", "A10090325", "XY72010522", "LED1", and "R1".

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a small green PCB component with a gold-plated connector on one side and several solder points on the other. The component is placed on a black ruler with white markings for scale. The ruler shows centimeter and millimeter markings. The background is a blue textured surface.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a larger green PCB component with multiple control buttons and labels. The labels include 'POWER', 'VOL-', 'VOL+', 'CH-', 'CH+', 'MENU', and 'INPUT'. The component is placed on a black ruler with white markings for scale. The ruler shows centimeter and millimeter markings. The background is a blue textured surface.</p>
