

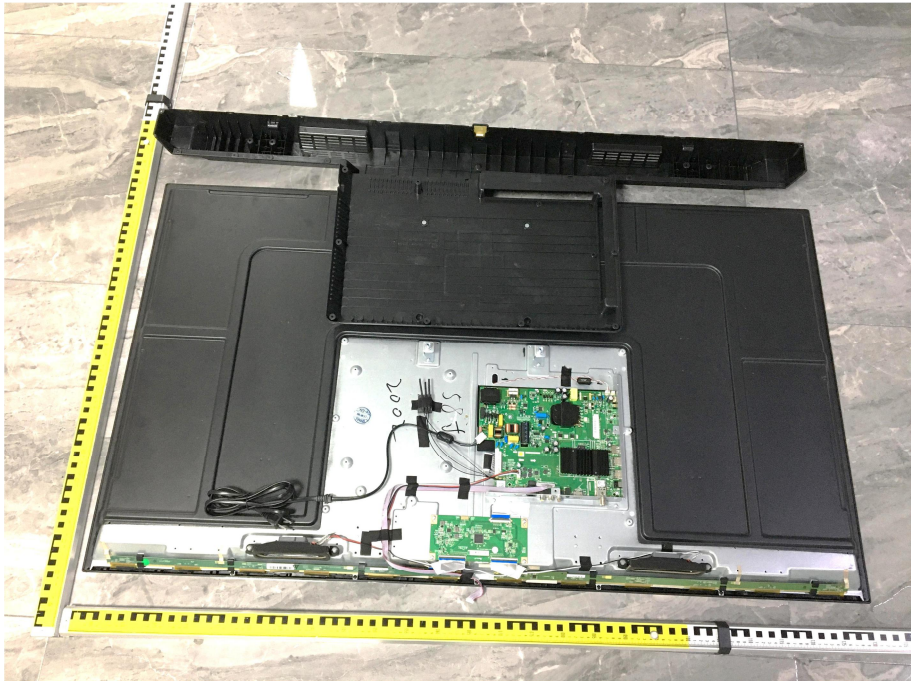

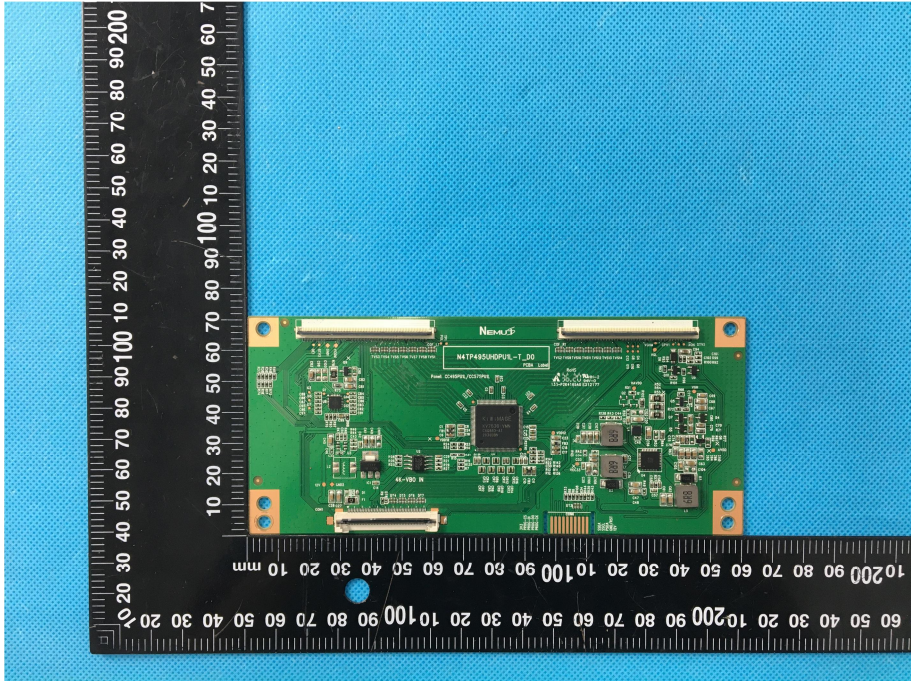

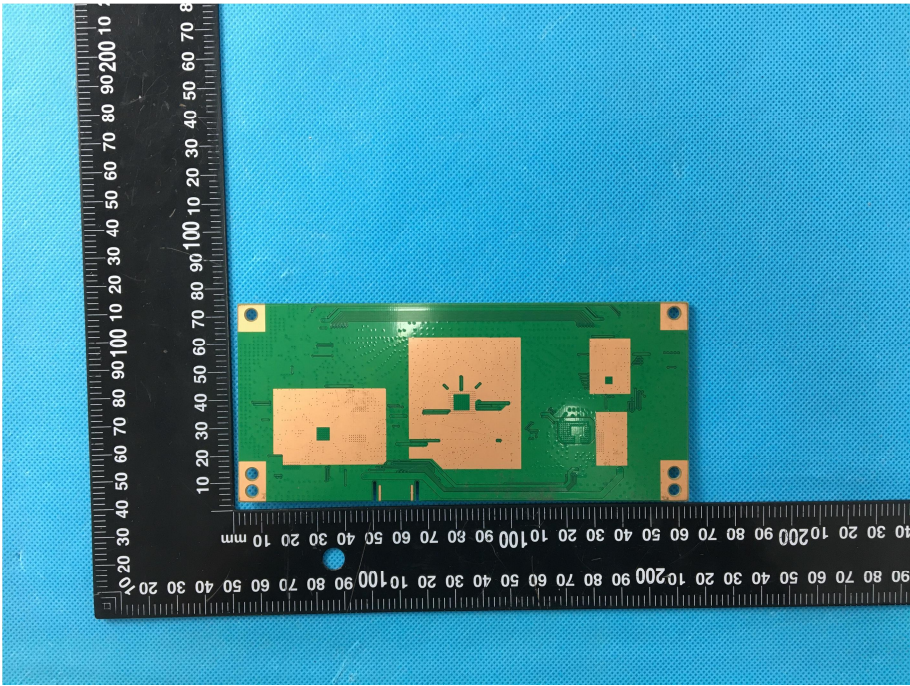

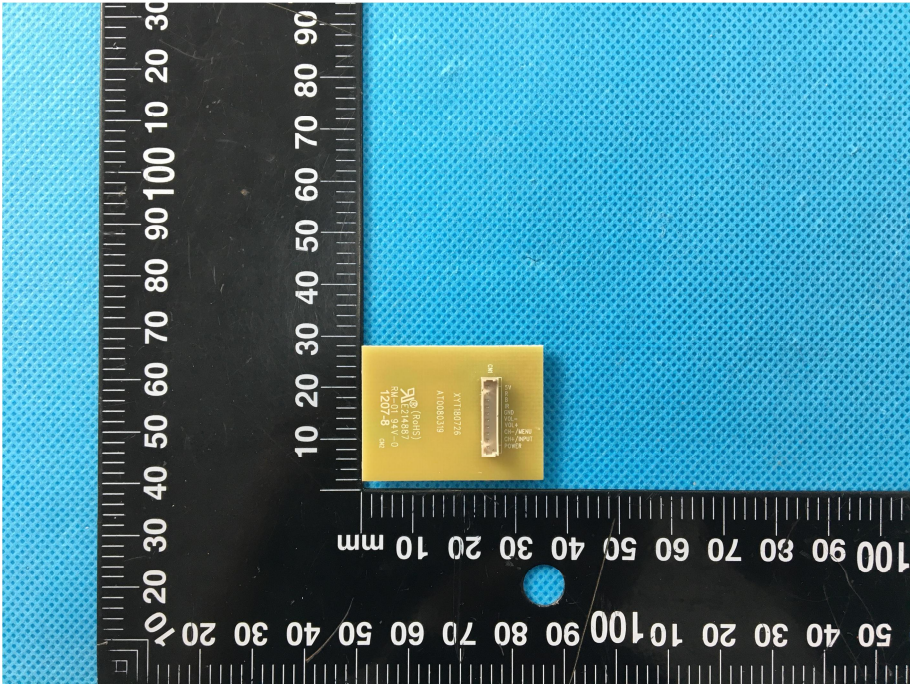

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the internal components of the EUT housing. The housing is black and has been opened to reveal the internal board assembly. The board is green and populated with various electronic components, including a central processor, memory modules, and power regulation components. The board is mounted on a silver-colored metal base. The housing is placed on a light-colored, textured surface. A yellow and black striped caution tape is visible along the bottom edge of the housing.</p>
<p>Solder Board-Component View 1</p>	 <p>This photograph provides a close-up view of the solder board component. The board is green and populated with various electronic components, including a central processor, memory modules, and power regulation components. The board is mounted on a silver-colored metal base. The board is placed on a blue textured surface. A black ruler is visible on the left side of the board, showing measurements in millimeters. The ruler is marked from 0 to 100 mm. The board is oriented vertically, with the ruler on the left side.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a green printed circuit board (PCB) component with several gold-colored pads and a central gold pad. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The component is approximately 100 mm wide and 60 mm high.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a small yellow component with a gold-colored pad and a central gold pad. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The component is approximately 30 mm wide and 20 mm high.</p>
