

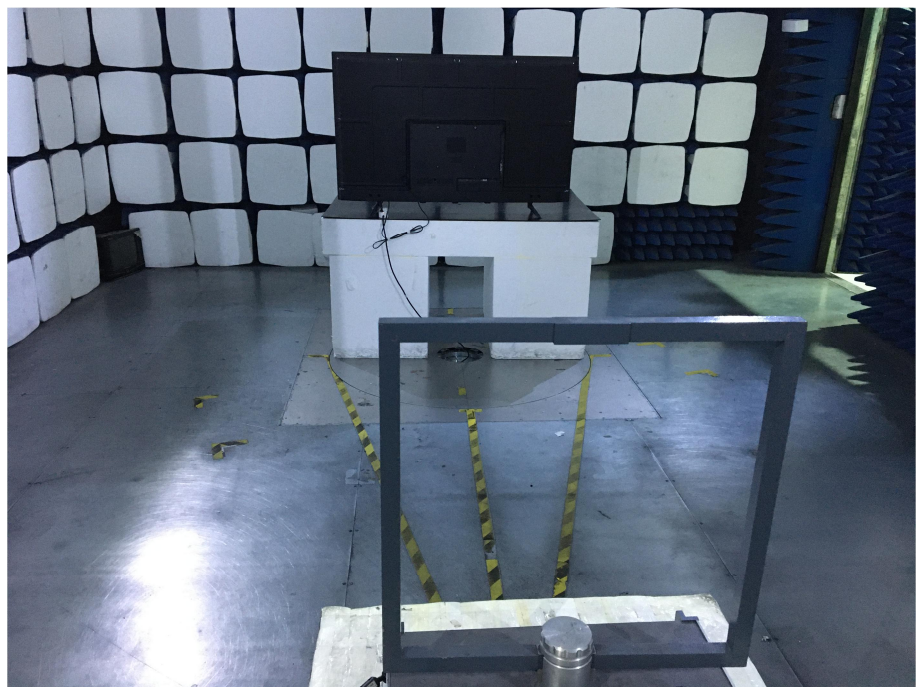

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Conducted Emission
Test Setup**

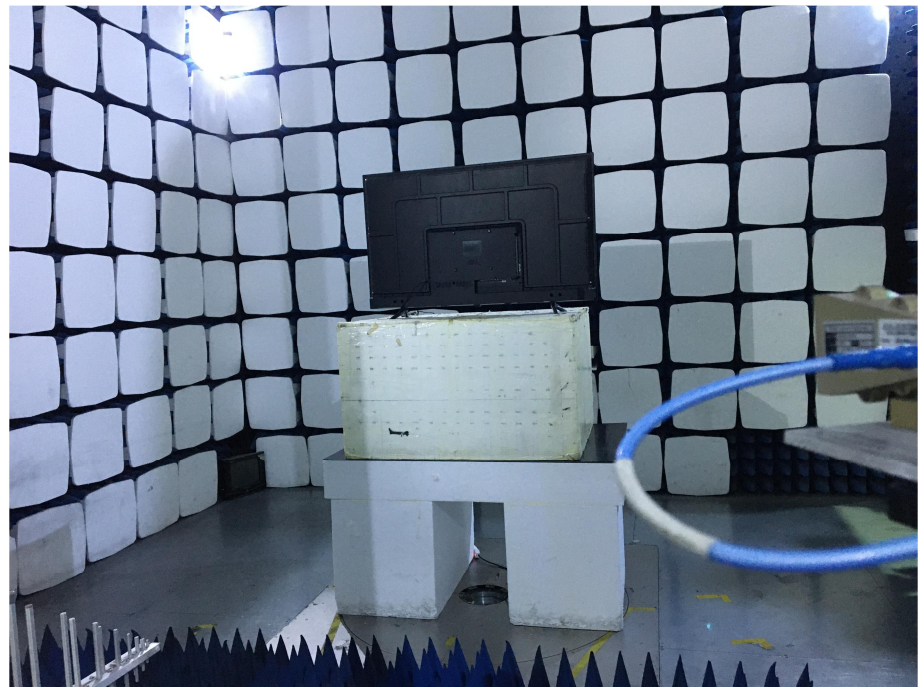

**Radiation Emission Test
Setup (Below 30MHz)**

<p>Radiation Emission Test Setup (30MHz to 1GHz)</p>	<p>A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped electromagnetic wave absorbers. A white desk is positioned in the center, with a computer monitor and keyboard on it. A metal frame structure is visible on the right side of the chamber. The floor is grey with yellow and black safety markings.</p>
<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped electromagnetic wave absorbers. A white desk is positioned in the center, with a computer monitor and keyboard on it. A white, rectangular object is placed on the desk. A red object is visible on the right side of the chamber. The floor is grey with yellow and black safety markings.</p>

Radiation Emission Test Setup (Above 18GHz)
