

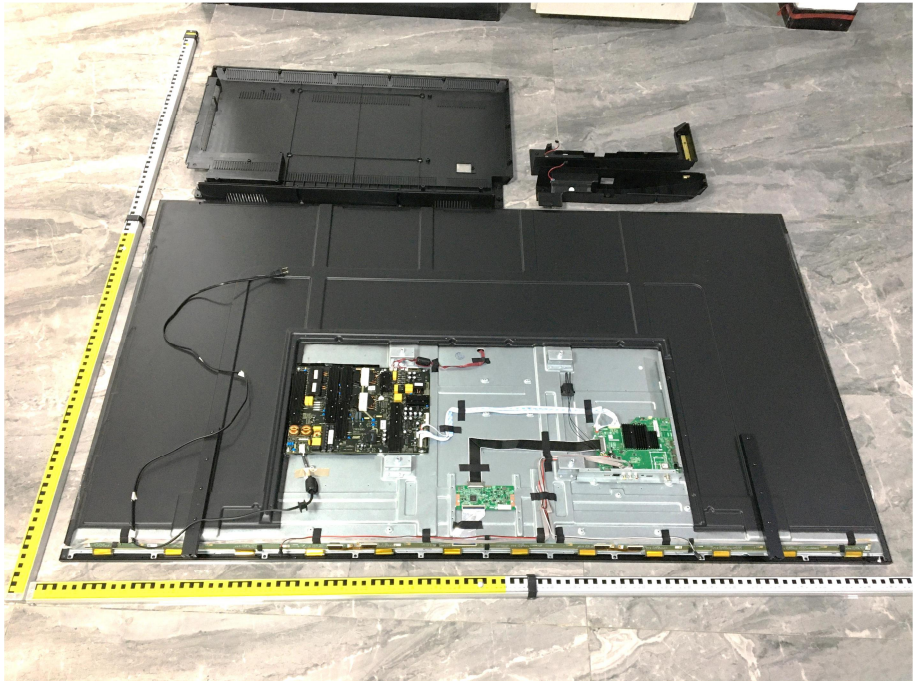

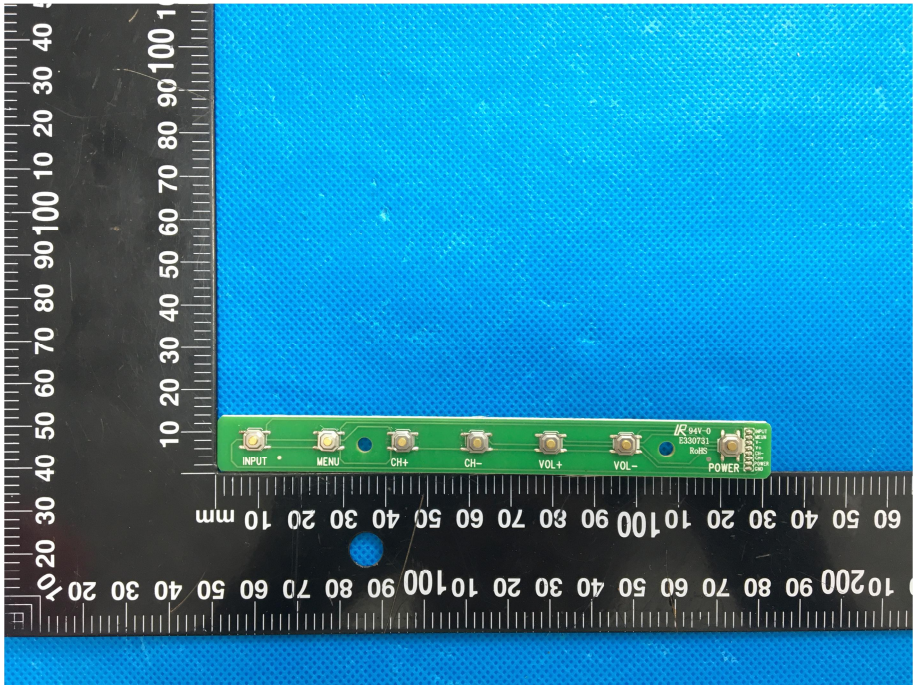

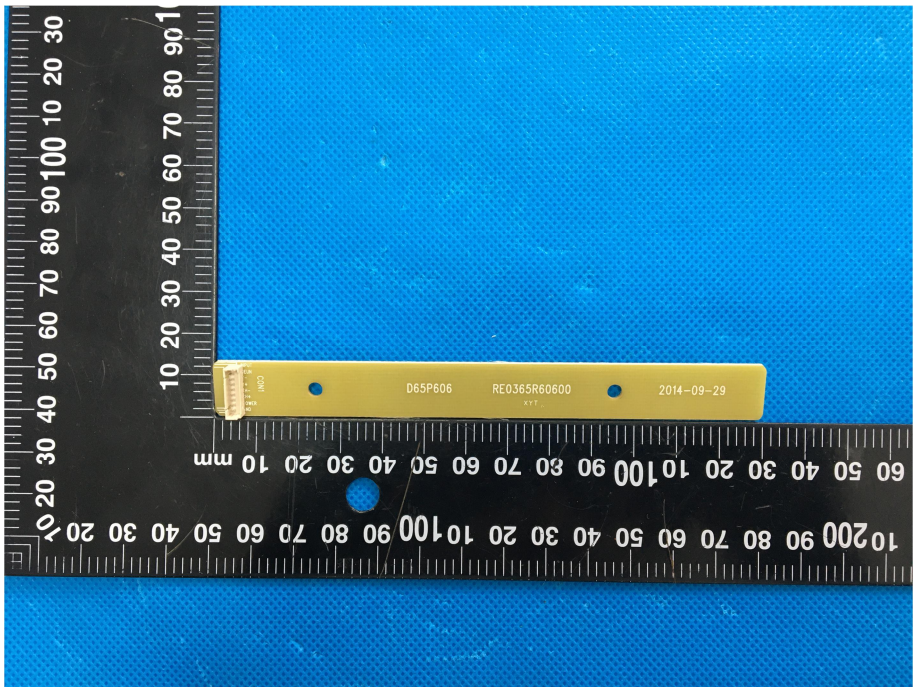

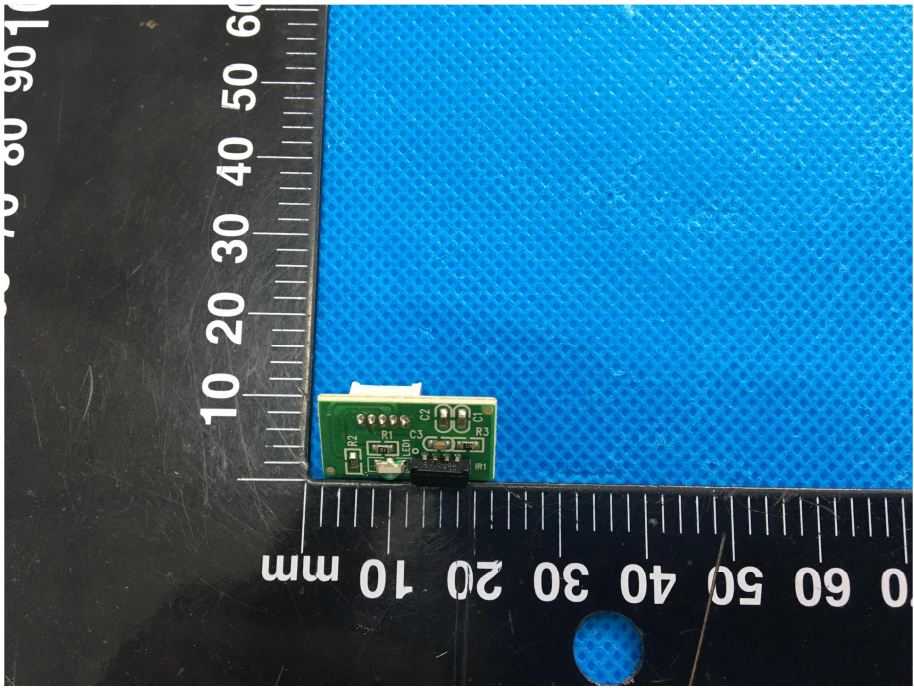

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the internal components of an EUT (End User Terminal) housing. The housing is black and rectangular, with a central opening revealing a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, capacitors, and connectors. The PCB is connected to a large, flat, rectangular panel, likely a display or touchpad, which is held in place by a metal frame. The entire assembly is resting on a light-colored, textured surface. A yellow and black striped caution tape is visible along the bottom edge of the housing.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of a green printed circuit board (PCB) component, likely a solder board, used for testing. The board is populated with several components, including a blue LED, a red LED, and a green LED. The board is labeled with "INPUT", "MENU", "CH+", "CH-", "VOL+", "VOL-", and "POWER". The board is placed on a blue textured surface, and a black ruler with white markings is visible in the foreground, providing a scale for the component's size. The ruler shows measurements in millimeters (mm) and centimeters (cm).</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a yellow solder board component. The component is rectangular with a gold-colored surface. It features a connector on the left side and two circular holes. Text on the component includes 'D65P606', 'RE0365R60600', and '2014-09-29'. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters and centimeters.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a green solder board component. The component is rectangular and contains several electronic components, including resistors (R1, R2, R3) and capacitors (C1, C2, C3). It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters and centimeters.</p>
