

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Conducted Emission
Test Setup**

**Radiation Emission Test
Setup (Below 30MHz)**

<p>Radiation Emission Test Setup (30MHz to 1GHz)</p>	<p>A photograph of a radiation emission test chamber. The chamber walls are lined with white, square-shaped pyramidal absorbers. A white test table is positioned in the center, with a black device on top. A metal boom structure extends from the right side of the chamber, holding a probe or antenna. The floor is marked with yellow and black safety lines.</p>
<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph of a radiation emission test chamber, similar to the one above. The walls are lined with white, square-shaped pyramidal absorbers. A white test table is positioned in the center, with a yellow device on top. A red antenna is mounted on a metal structure to the right of the table. The floor is marked with yellow and black safety lines.</p>

Radiation Emission Test Setup (Above 18GHz)
