

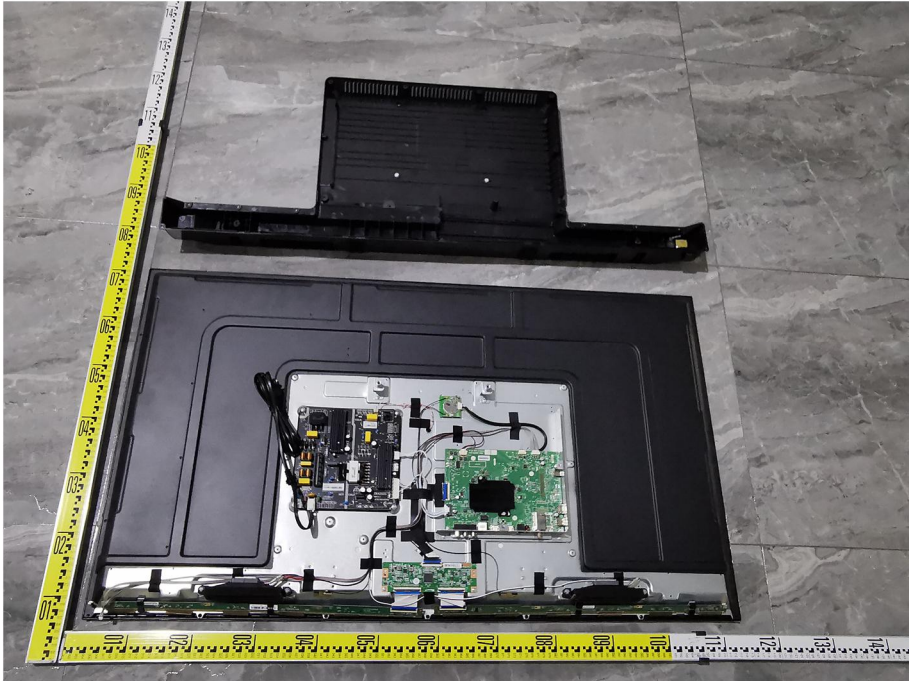

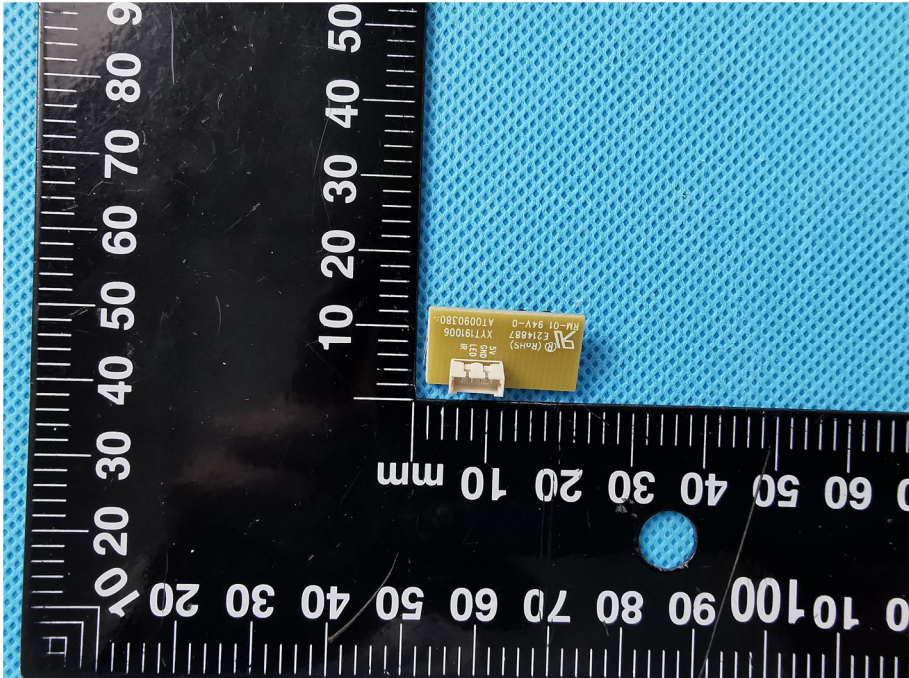

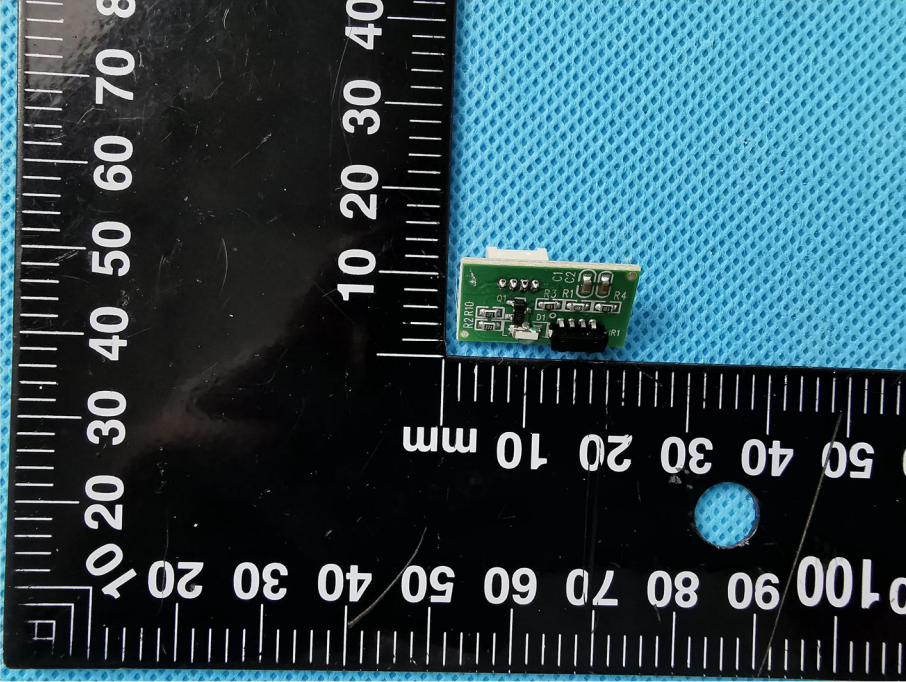

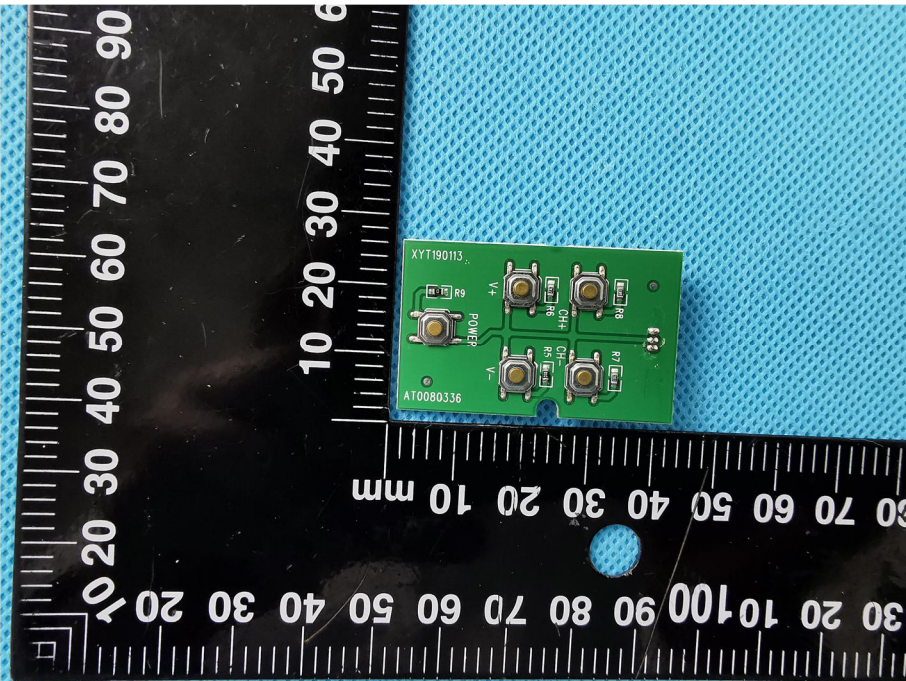

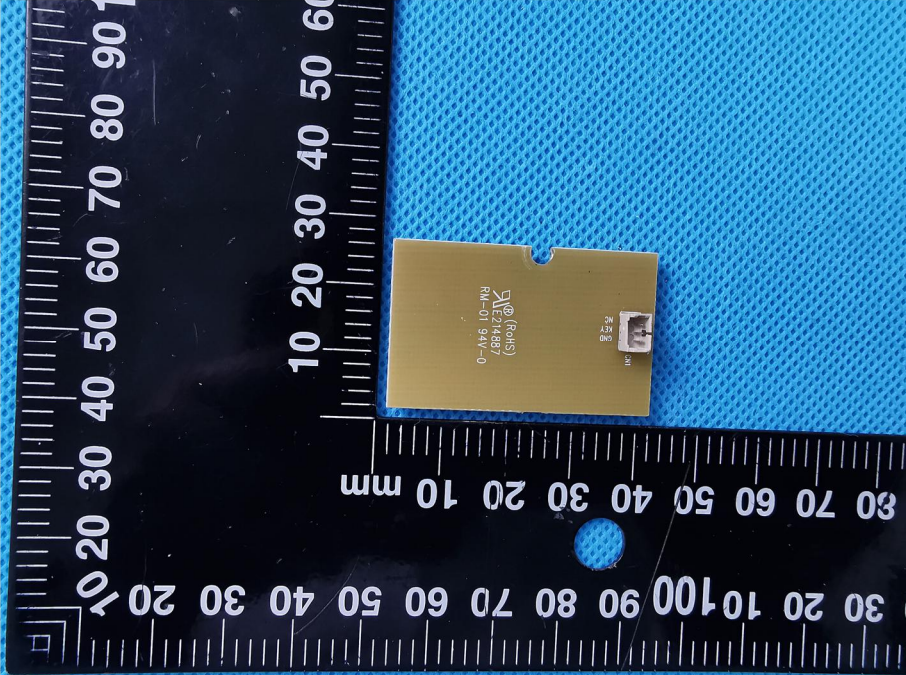

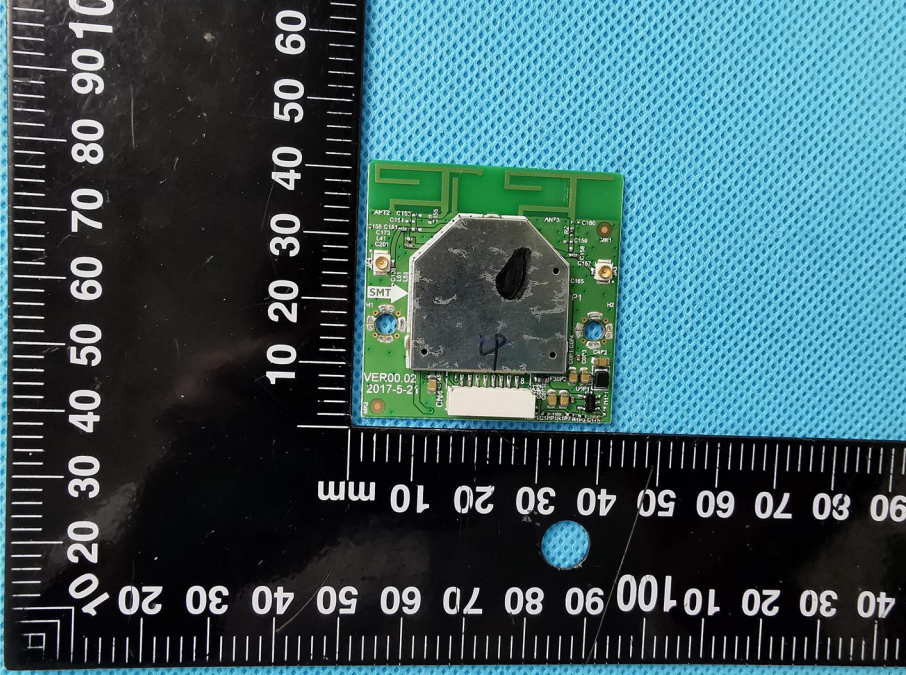

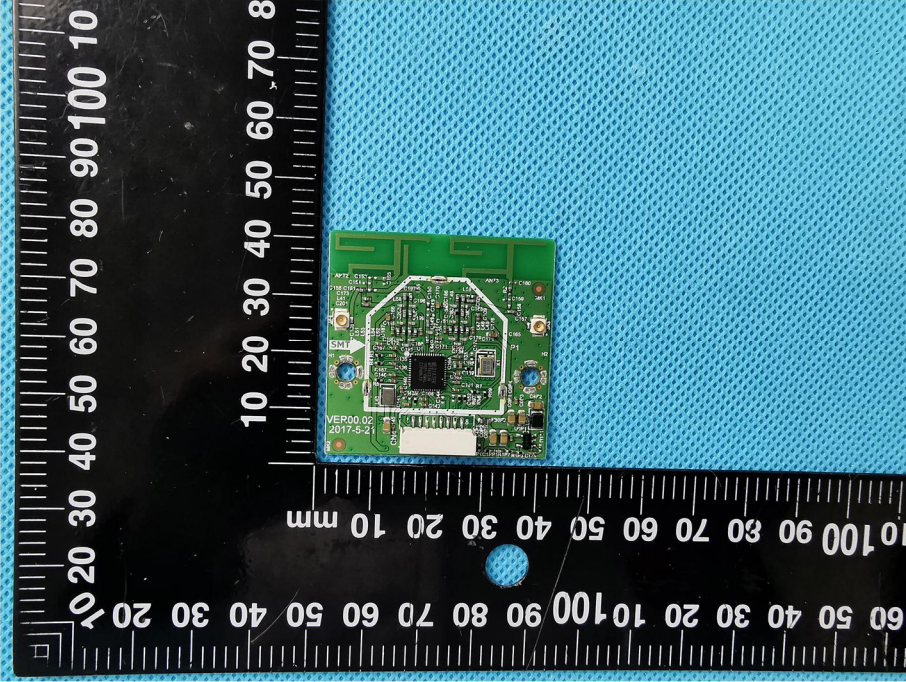

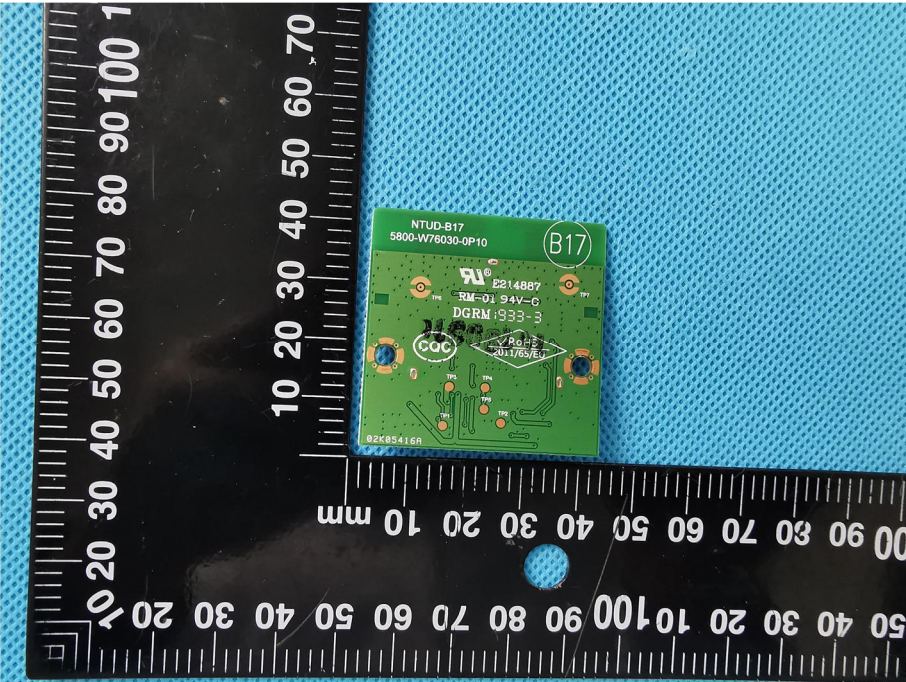

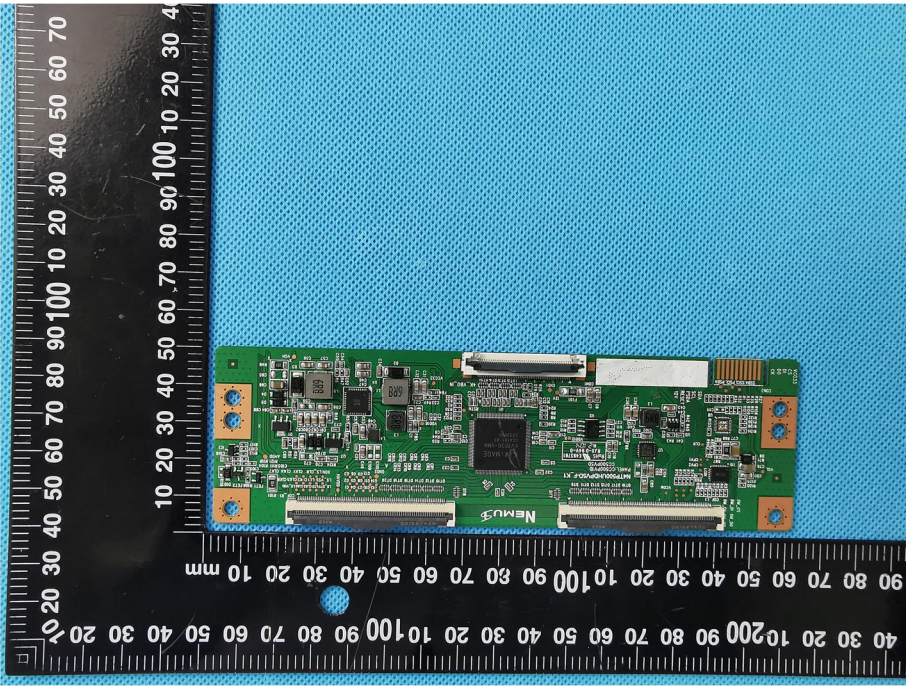

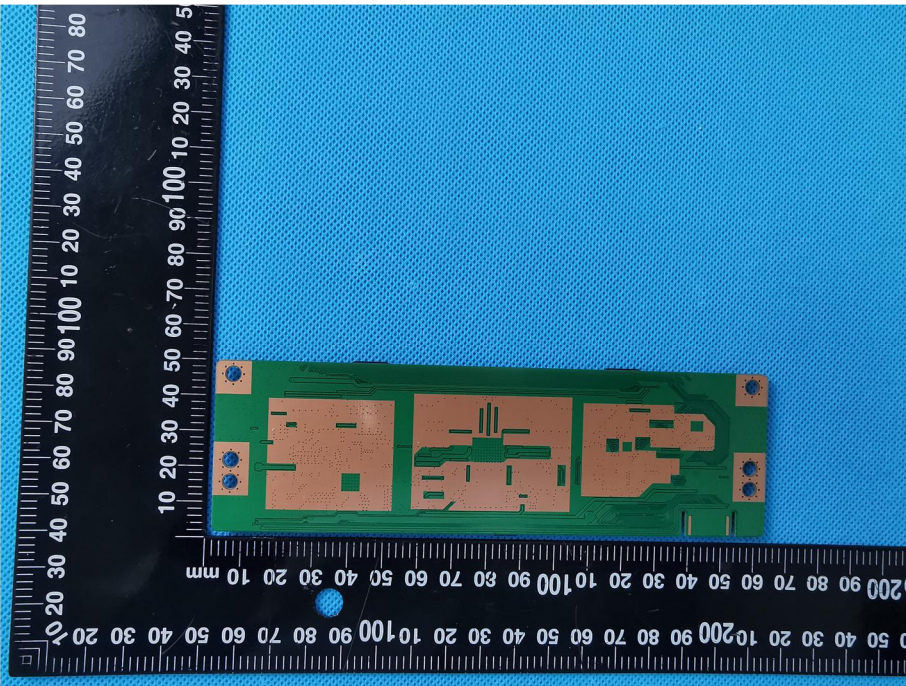

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of an EUT (End User Terminal) housing. The housing is black and rectangular. Inside, there is a green printed circuit board (PCB) with various electronic components, including a microcontroller, capacitors, and connectors. A yellow measuring tape is placed along the left and bottom edges of the housing for scale.
<p>Solder Board-Component View 1</p>	 A close-up photograph of a soldered component on a PCB. The component is a small, rectangular, gold-colored chip with a white label. The label contains the following text: "WALTEK (SHENZHEN) CO., LTD.", "21X1006", "XT191006", "A10090380", and "0-944-0". A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters and centimeters.

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph showing a small green printed circuit board (PCB) component mounted on a larger board. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The component has several components labeled R1, R2, R3, R4, R5, R6, R7, R8, R9, R10, R11, R12, R13, R14, R15, R16, R17, R18, R19, R20, R21, R22, R23, R24, R25, R26, R27, R28, R29, R30, R31, R32, R33, R34, R35, R36, R37, R38, R39, R40, R41, R42, R43, R44, R45, R46, R47, R48, R49, R50, R51, R52, R53, R54, R55, R56, R57, R58, R59, R60, R61, R62, R63, R64, R65, R66, R67, R68, R69, R70, R71, R72, R73, R74, R75, R76, R77, R78, R79, R80, R81, R82, R83, R84, R85, R86, R87, R88, R89, R90, R91, R92, R93, R94, R95, R96, R97, R98, R99, R100. The component is oriented vertically.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph showing a small green printed circuit board (PCB) component mounted on a larger board. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The component has several components labeled V+, V-, CH+, CH-, POWER, and AT0080336. The component is oriented vertically.

<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph showing a small, rectangular, gold-colored component with a notch on one side. The component is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler has markings from 0 to 100 mm. The component is approximately 25 mm wide and 15 mm high. Text on the component includes 'RM-01 94-0' and '0-146 10-3'.</p>
<p style="text-align: center;">Solder Board-Component View 5</p>	 <p>A photograph showing a green printed circuit board (PCB) with a large, dark, irregularly shaped component mounted on it. The component is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler has markings from 0 to 100 mm. The component is approximately 40 mm wide and 25 mm high. Text on the PCB includes 'VER00 02' and '2017-5-21'.</p>

<p style="text-align: center;">Solder Board-Component View 6</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'VER00.02' and '2017-5-2', placed on a blue textured surface. The component is surrounded by a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The component is a small, rectangular board with various electronic components, including a central chip and several smaller components. The board is positioned between the 10mm and 100mm marks on the ruler.</p>
<p style="text-align: center;">Solder Board-Component View 7</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'NTUD-B17' and '5800-W76030-0P10', placed on a blue textured surface. The component is surrounded by a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The component is a small, rectangular board with various electronic components, including a central chip and several smaller components. The board is positioned between the 10mm and 100mm marks on the ruler. Other markings on the board include 'E214887', 'RM-01 94V-C', 'DGRM:933-3', 'COC', 'R053', '011785/E1', and '02K05416R'.</p>

<p style="text-align: center;">Solder Board-Component View 8</p>	 <p>A photograph of a green printed circuit board (PCB) populated with various electronic components. The board is oriented horizontally and is placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements in millimeters. The board features several integrated circuits, resistors, and other surface components. There are four blue circular solder joints on the left edge and two on the right edge. The board is labeled with 'NEMUS' and 'M19504000-XT'.</p>
<p style="text-align: center;">Solder Board-Component View 9</p>	 <p>A photograph of the same green PCB as in View 8, but with the components removed. The board is oriented horizontally and is placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements in millimeters. The board shows the underlying copper traces and pads. There are four blue circular solder joints on the left edge and two on the right edge.</p>
