

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Conducted Emission
Test Setup**

**Radiation Emission Test
Setup (Below 30MHz)**

<p>Radiation Emission Test Setup (30MHz to 1GHz)</p>	A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped pyramidal absorbers. A black television set is mounted on a white stand in the center. A metal frame with vertical poles is visible in the foreground. The floor is grey with yellow and black safety markings.
<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped pyramidal absorbers. A black television set is mounted on a white stand in the center. A white electronic device is placed on a stand in front of the television. Blue, conical absorbers are visible along the bottom edge of the chamber. A red object is partially visible on the right side.

Radiation Emission Test Setup (Above 18GHz)
