

Product Equality Declaration

Date: December 13, 2023

NXP Product Family: RW612, RW610

We, **NXP Semiconductors**, hereby declare under our responsibility that the product families described above are related in the following way.

- The RW612 devices are superset devices that encompasses all of the circuitry and electrical, mechanical and physical construction of the RW610 devices.
- The RW610 devices are identical to a subset of the circuitry and electrical, mechanical and physical construction of the RW612 superset devices. IEEE 802.15.4 circuitry in RW610 is disabled through OTP programming.

The difference between model numbers is only for different target markets and use cases.
