FCC Certification Number: Approval Date:

XPYJODYW263

04/28/2021

Application of Class II Permissive Change

To whom it may concern:

We, u-blox AG, hereby request a C2PC for the JODY-W2 modules with FCC ID: XPYJODYW263, to modify our existing certification.

The ground for the C2PC is that Dynamic Frequency Selection (DFS) master capability has been implemented in the 5.25-5.35 GHz band and 5.47-5.725 GHz band for the above-mentioned FCC ID.

The change is in the firmware and there have not been any change in the circuitries of the already certified device.

All required DFS tests has been performed and the test reports shall be filed as exhibits to this request.

Sincerely,

Filip Kruzela
Certification Manager, u-blox AG
