1. About ONYX

BOOX is presented by Onyx International, which has a group of professionals who dedicate themselves in designing state-of-the-art reading terminal. The beauty of the BOOX is embodied in both its simplicity and its power. As we are going to show you, BOOX is an open and flexible platform for both consumers and content providers.

BOOX is powered by a 16-level grayscale e-ink screen that looks and feels like paper. Passive lighting and diffuse surface relax your eyes and reduce eye strain. By the hand-writing system, you can take notes while reading and sketch up ideas that happen to emerge. BOOX takes full advantage of new-generation e-ink screens: extremely low power consumption without reflection and backlight. Each full charge can sustain a few weeks' reading. By reducing paper consumption while providing a realistic paper-like reading experience, digital content helps to protect the environment without sacrificing convenience or life style.

For content partners, we also provide support for custom formats and digital rights management solutions. All of our viewers have standard features such as layout management, font adjustment, full text search, zooming, and page flow.

For a next-generation information device, connectivity is essential. The user can connect to the Internet by build-in Wi-Fi to download new content or surf the web. Customized for the e-ink screen, WebKit, the same software engine as some powerful desktop browsers such as Safari and Chrome, is the web browser of BOOX.

BOOX gives you a new reading experience.

2. Standard Accessories

Included in the Box:

- | | |
|----------------------|----|
| 1. BOOX Note Reader | x1 |
| 2. Stylus Pen | x1 |
| 3. Type-C Cable | x1 |
| 4. Quick Start Guide | x1 |
| 5. Warranty Sheet | x1 |
| 6. Protective Sleeve | x1 |

Optional Accessories (Purchased separately)

1. Adapter
2. Stereo headphone

3. Safety Guide

Please read the Safety Guide carefully before you start to use the device.

Contact your BOOX retailer if you have any technical problem; or you can dial our official service line at 4008-400-014 or 4008-860-830 .

Screen protection

The device is equipped with E-ink screen, which is very fragile. Please have no shocking, squeezing, pressing against the screen, or dropping the device from higher place. If the screen is already broken, stop using it and contact the professional or other qualified staff to replace the screen for you. Please don't dismantle the device without our permission;

Standard accessories

Only the battery, adapter, and other accessories meeting our standard safety rules can be used for the device. For details, please refer to Product Specification. We will not be responsible for any damage caused by incompatible accessories;

Stay away from liquids

The device is not waterproof. Don't expose the device to humid environment or use it in the rain. Please keep it away from any corrosive liquids;

Don't dismantle the device

Please don't dismantle the device in case of any damage ;

Using environment

The using environment of the device is 0°C-50°C ;

5. Interface Introduction

5.1 Main interface

The main interface contains "Status Bar", "Now Reading", "Recent Added" and "Function Area" ;

Status bar

This section displays the current state of the device, including: Home icon, Battery Usage, Notification, Time, One-Click Clearance, Switch between Pageturn / Volume buttons, A2 mode on/off, Multi-tasking switching and Menu;

A2 mode refreshment

Two-grey level refreshment mode is good for fast refreshment of text page. It enables fast pageturn, no screen flashing and less ghost background. When A2 mode is on, reading articles with images, graphics, texts mixed are not recommended because the images may not fully shown;

 : A2 is on

 A2 is off

➤ Multi-tasking switching

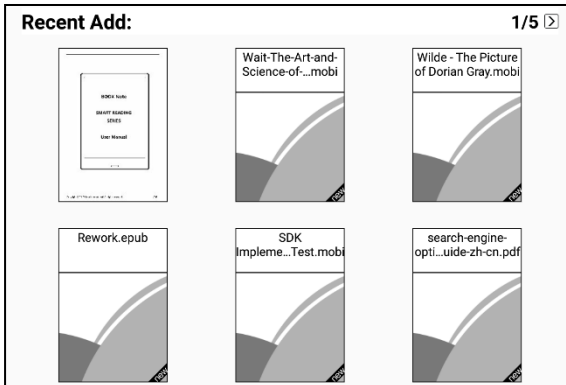

Clicking this icon, pop up the Android multi-task list to check the running applications in background, you can choose to switch or close the selected application.

Now Reading

- The recently read books information is displayed in this section, including book cover, book title, author, page number, last read time, reading progress etc.;
- Open the book by tapping book cover or book title and read from where you left off last time;
- Read books can display book covers while those unread books shall display BOOX cover by default;

Recent Added

The newly added books are listed here chronologically. There are total 8 pages of the list. Swipe to left/right to check more newly added books;

Function Area

This section displays some frequently used function icons, including Library, Storage, Apps, Setting, Note and Browser ;

➤  Library

All books from both internal storages are displayed here. It is non-file management mode;

But user can choose to only display the books from directory “Books” by User Preference of Setting;

➤  Storage

All folders from internal storage will be displayed here. Users can manage documents and folders from page;

➤  APPS management

Apps page allows users to manage or uninstall all apps;

➤  Setting

Going to Setting page, users can manage settings for the whole device.

5.2 Notification interface

Click the middle of the Status Bar, the notification interface can be callout, press back button or home icon to exit;

Notification interface contains: battery percentage, WIFI setting, Bluetooth setting, system setup, ongoing operation indication and Program update information etc.

5.3 Multi-tasking interface

Click multi-tasking icon, to switch on/off multi-tasking interface to check the running applications list in background, you can choose to switch or close the selected application.

One click removal mode can release more memory space, optimize the system speed.

6. Reading Page

- Tap any book cover to open a book. Full-screen reading without showing status bar and page bar is set by default;
- Support multiple document switching, up to 4 documents can be opened at the same time, support for a separate shutdown, exit will not automatically close the document;
- The current reading of the document label with highlight;

Reading record(Local data) 2/2

10. Setting

Users can manage settings of the whole device here, including system, language, extension, Network, and About;

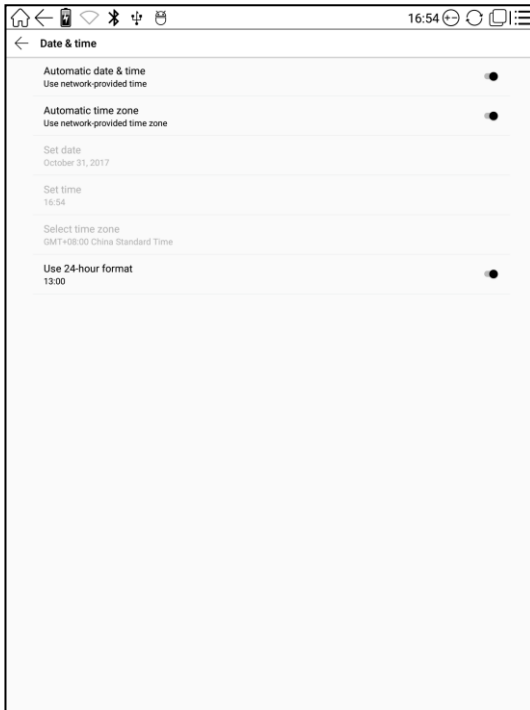

10.1 System

Users can set date, storage, privacy, users options of the device;

➤ **Date**

- Users can choose either auto setting or manual setting for date and time. When device is connected with internet, device will automatically set date and time according to local time zone. Manual setting requires to set time zone, date and time;
- Users can select their preferred time and date display format;

Power manager

Users can set screen auto sleep timeout, Power off timeout ,network inactivity timeout etc;

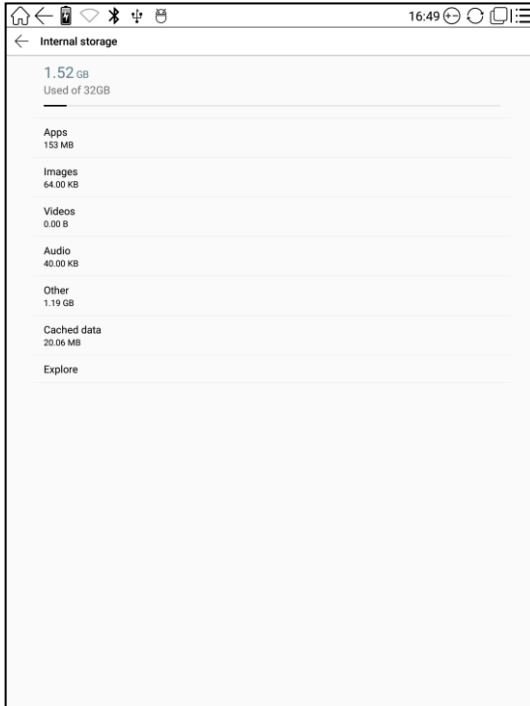

➤ **Privacy**

- This includes settings of data backup, data recovery and factory data reset etc;
- Factory data reset will erase all user data. Please back up all user data before performing factory resetting;
- If you ever set up a VPN connection, to enter the default password 0000 when restoring the factory settings;

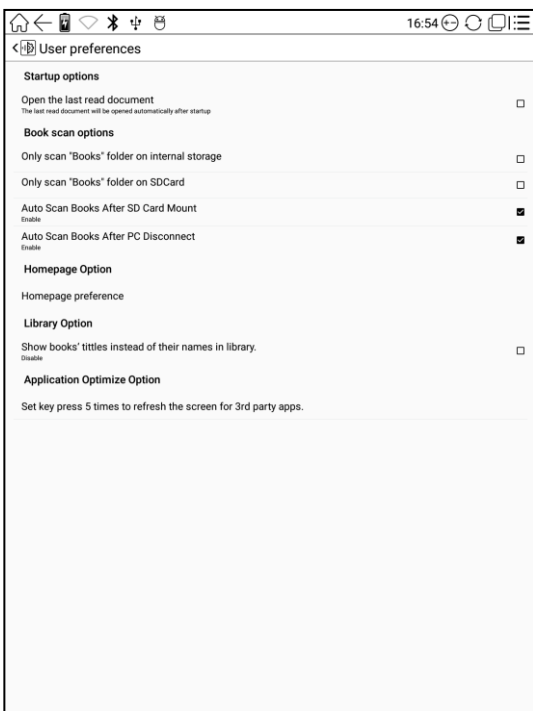

➤ **Storage**

This displays usage of storages including local storage ;

➤ User preference

1. Startup Options: Users can choose whether to open the last read book when starting the device; It will go directly to the main interface by default;
2. Scan metadata options: user can choose whether to automatically scan metadata in Library after new books are added;
3. Book Scan options: Users can choose to only scan books either from internal storage;
4. Homepage Option: Users can choose to display “recently read books or recently added books” at the main interface; Recently added books is default setting of the device;

10.2 Language setting

Users can set system language, TTS reading on this page;

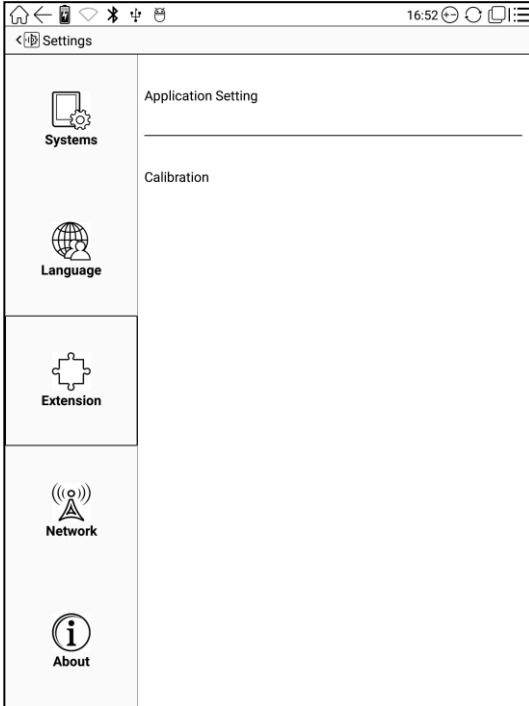

➤ **Language setting**

Users can set languages of the system and virtue keyboard. The system has Android keyboard by default. Users can install third-party apps for more input methods;

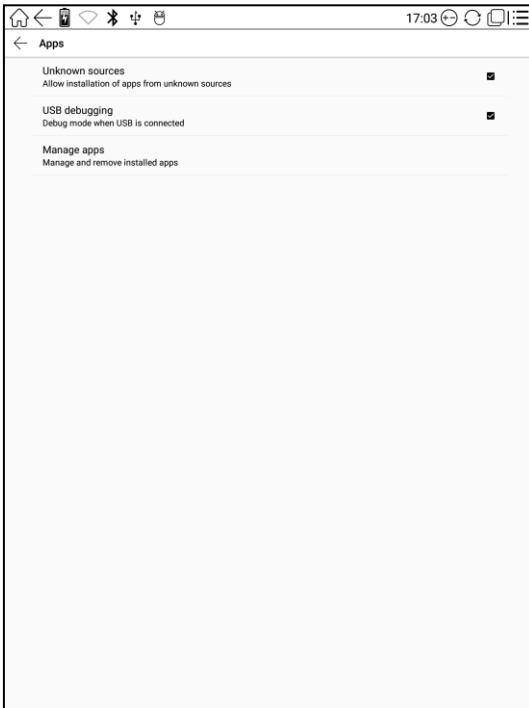

Extension

This includes Apps setting and calibration eletromagnetic;

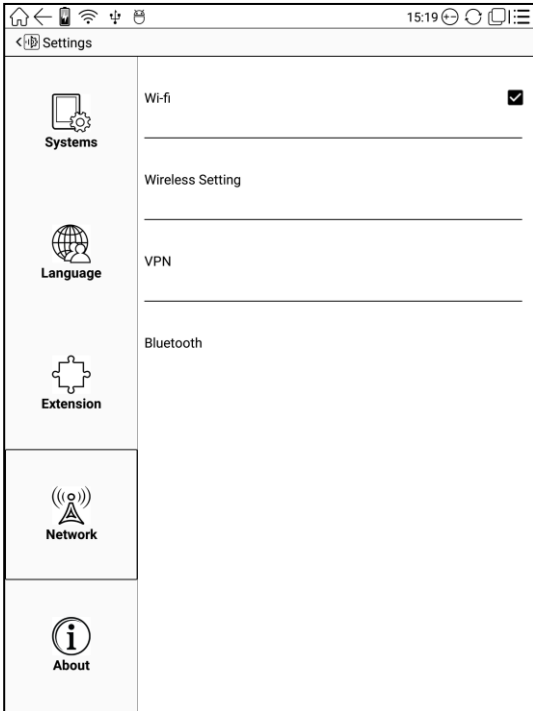

➤ **Apps setting**

Users can select whether to allow installing unknown source Apks and debugging, manage and delete Apps;

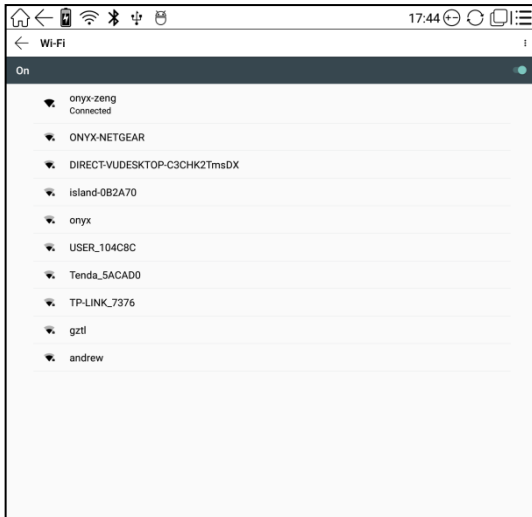

10.4 Networks

- This is for Wi-Fi \VPN\Bluetooth setting.
- When Wi-Fi is connected, users can browse webs and download books via internet on the device;

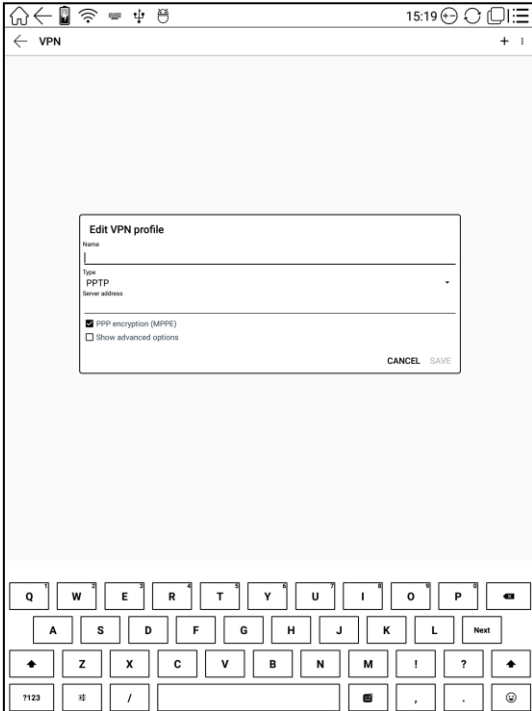

- When “turn WiFi on” is selected, the device will search Wi-Fi hotspot automatically. When all available WLAN are listed, users can choose a network, input password to connect with internet. WiFi signal will be displayed at “Status bar” when WiFi is connected;
- After WIFI is connected successfully at the first time, the device will save WI-FI information automatically. Users only need to turn on WIFI on notification bar if using same WIFI next time.

VPN Setting

- When the VPN is turned on for the first time, the system automatically generates a security password (0000). This password can not be changed and needs to be used only when the factory settings are restored.

Bluetooth Setting

Turn on Bluetooth, you can search for nearby Bluetooth devices, send connection requests;

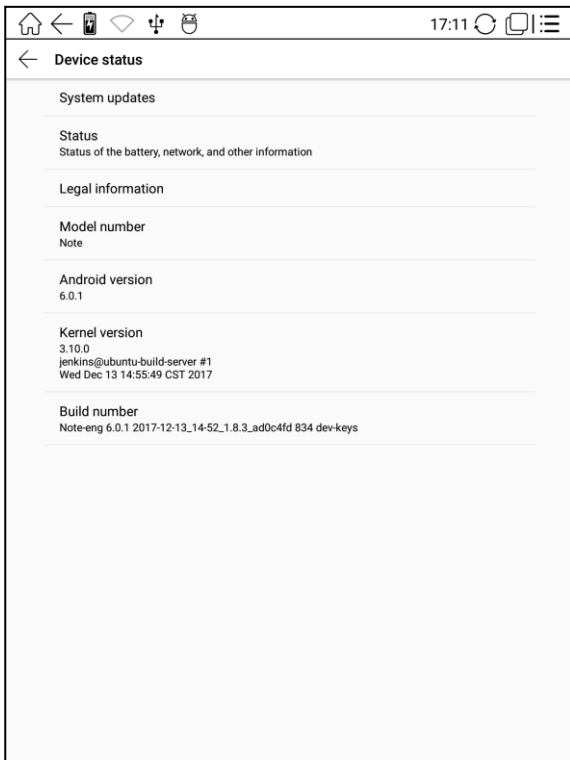

Bluetooth needs to be paired before use.

Currently only support the ereader to receive documents, do not support sent to other devices

10.5 About

More information about the devices are listed here, including system update, notification, battery usage, legal info, model, firmware version etc. ;

11. FAQ

11.1 How to turn the device on/off

- When the device is off, press power button for 3-5 seconds to turn the device on;
- When the device is on, press power button for 3-5 seconds to turn the device off;
- When the device is on, pop up menu, then choose "Shut Off" to turn the device off

11.2 How to charge

- ✓ Recharge the device by connecting it with PC by USB cable;
- ✓ Recharge the device by connecting with power adapter(5V=1A, optional accessories);
- ✓ Indicator light is on when the device is charging. The light will be off after battery is fully charged;
- ✓ It takes around 3 hours to fully charge the device;

11.3 How to transfer data

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.
