RE: according to KDB 484596 D01 Referencing Test Data across Separate Equipment Authorization Application

For Industrial Booster

CAP L 7/80-85/17E/19 FCC ID: XS5-CAPL7817E19

Certified under FCC Rule Part 24E

Frequency Range: 1930-1995 MHz

Equipment Class: Part 20 Industrial Booster (CMRS)

Granted on November 28, 2017 by Phoenix Testlab GmbH

We apply for the new

CAP L 17E/17E/19/19 FCC ID: XS5-CAPL17E19

by similarity to the 19 Band, the reuse of the report

FCC_IC 1900 MDE_COMMS_1701_FCCb_SIGNED.pdf

from the above listed FCC approval, for a separate equipment authorization.

To whom it may concern:

We, ANDREW Wireless Systems GmbH declare similarity between both 19 paths by reason of:

- Same Line Up
- Same Assembly
- Same Tuning

We, the applicant take full responsibility that the test data represents compliance for the new FCC ID: XS5-CAPL17E19. Radiated Emission measurements were performed uncomplained.

Best Regards / Mit freundlichen Grüßen

Andrew Wireless Systems GmbH
