RE: Common Use of Manual at Andrew Wireless Systems GmbH

To whom it may concern

We, Andrew Wireless Systems GmbH in Buchdorf, part of CommScope declare for the following system:

ION-M7P/17EP/19P

(new) GRANT: XS5-M717E19P

A manual will be created for the maximum assembled version of a repeater family. In this case the highest assembled version is the ION-M7P/85P/17EP/19P, a 4-band repeater.

All minor assembled versions (diverse 3, 2 and 1-band repeaters) will be delivered with the same manual.

A minor assembly will be reached by taking out the amplifiers which were not used. An activation of this non-used frequency is without a retrofitting not possible.

All needed information for minor assembled repeaters will be covered by the manual of the maximum version.

Mit freundlichen Grüßen

Andrew Wireless Systems GmbH

i.A. Frank Futter
