April 12, 2010

Equipment Authorization Division  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

FCC ID: XT5APBT320  
Product Name: APBT320

Pursuant to request that the requirement for a visible label be waived for the following reason:

The product is portable; it is designed to be used as a laptop for blind peoples. It has a size of 9.75x5.75x0.8 inches which is smaller than most laptops. Also the product can be battery operated for over 8 hours.

Humanware intends to put the label containing the FCC logo and number on the product. The label will be protected and hidden by the removable battery. By putting the label under the easily removable battery we ensure label readability and permanence. The battery is easily removed with a single hand by pushing a slider. No tools are needed.

Since the product will be sold with the battery inserted, the user will be able to see in the first page of the product manual the instructions to access the label.

Dated this 12th Day of April 20 10
